ASL-P55-395: Brushing teeth, Mission School, Yakutat, Alaska. Alaska State Library. Fhoki Kayamori. Photographs, ca. 1912-1941. ASL-PCA-55

The nurse giving the children a lesson on brushing teeth outside of the Mission School, later the Covenant Church, Yakutat.

80 percent of all adults have some degree of periodontal disease, which is linked to or is a potential risk factor for those with damaged heart valves, cardio-vascular disease, stroke, diabetes, respiratory disease and behavioral and psychosocial conditions. It is the most pervasive infectious disease on earth. People with gingivitis and periodontitis have a 23 percent to 46 percent higher chance of dying than those who are free of this disease.

Proper gum and tooth hygiene is one of the easiest ways to increase your quality of life.

Introduction

Welcome to the State of Alaska Department of Health and Social Services Fiscal Year 2011 Operating Grants report. This publication provides information on the grant programs and annual operating grants awarded by the Alaska Department of Health and Social Services.

Operating grants are one of the key drivers advancing the State of Alaska Department of Health and Social Services' mission of promoting and protecting the health and well-being of all Alaskans. These services enable Alaskans to make changes in their lives that lead to healthier outcomes.

We are putting performance first, in ensuring that the programs we fund are run efficiently and effectively – by embracing best practices, adopting measurable, realistic and timely goals, and streamlining government procedures while retaining responsible oversight.

In Fiscal Year 2011, over \$160 million of the Department's annual budget was awarded through grants, with additional services supported through contracts and provider agreements. DHSS manages 631 operating grants, which were awarded to 242 agencies. The Department and its employees continue their commitment to the provision of responsive and effective community-based services.

It has been my pleasure, and my privilege to work with staff of Health & Social Services these past productive years, and my sincere wish for continued success in achieving the mission of the Department on behalf of the people of Alaska.

Sincerely,

William H. Hogan

Commissioner

Alaska Youth Suicide Prevention

Authority: Substance Abuse and Mental Health Services Administration SAMHSA, 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Youth ages 20-29 have the highest number and rate of suicide in Alaska. The Alaska Youth Suicide Prevention Program funds Regional Suicide Prevention Teams around the state that utilize the Substance Abuse and Mental Health Services Administration (SAMHSA) Strategic Prevention Framework (SPF). Community planning methods include identifying needs, resources, readiness necessary for building capacity and the development of a Strategic Regional Suicide Prevention Plan. The plan will identify the utilization of best practices including environmental and other prevention-based strategies that will demonstrate anticipated outcomes associated with increasing protective factors and reducing risk factors associated with suicide and suicide behaviors.

Target Group: Youth ages 20-29. This program will also target higher risk populations such as Alaska Native male teens, preteen females, returning veterans ages 18-24, gay, lesbian, bisexual and transgender youth and youth residing in an institutional setting such as residential treatment, foster care, and detention or correctional facilities.

Resource Allocation: Services are sought Statewide.

Criteria: Eligible applicants include nonprofit organizations; municipalities and Regional Educational Attendance Areas or other political subdivisions of the state; other State agencies; Alaska Native Tribes; or a combination of these entities. Funding is issued through a statewide competitive solicitation process. Proposals are solicited that address the goal of promoting communities utilizing effective practices and partnerships. Proposals must contain tangible evidence of participation in community association, partnership or collaborative agreements that will enhance the applicants ability to achieve program goals and desired outcomes.

Appropriation: Grant Funding is appropriated to the Division of Behavioral Health.

RDU: Behavioral Health

Component: Rural Services/Suicide Prevent'n

Alcohol Safety Action Program (Adult and Juvenile)

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Priorities of the program are alcohol and substance abuse screening, referral, and monitoring education or treatment requirements of alcohol-related misdemeanor cases. Each program has an adult component and may have a juvenile component.

Target Group: Adult ASAP: Services are intended for clients who have a current or pending DUI misdemeanor criminal case. Most clients are referred directly from the court as a condition of their sentence, although they may be assigned prior to their conviction as a condition of release.

Juvenile ASAP: Services are intended for clients who are referred for adolescent assessment, referral, and treatment related to underage drinking and drug offenses. Juvenile ASAP serves clients aged 14-21 who have been convicted of a minor consuming, minor in possession, or tobacco violation. Most clients are referred directly from the court as a condition of their sentence, although they may be assigned prior to their conviction as a condition of release.

Resource Allocation: Criteria for allocation of funds for these services are 1) cost per case; 2) size of caseload and; 3) support of the local justice system. Geographic consideration is based on the number of cases in each court location. Award of Juvenile Alcohol Safety Action Program funding is made only to grantees that currently have an adult ASAP infrastructure in place. A 10% match is required.

Criteria: Eligible applicants will provide services in communities that is an Alaska Court System site with an approved alcohol and/or drug abuse treatment program. Criteria for awarding grants are derived from statute and regulation and include evaluation of component costs, budget summary and narrative, program narrative, and goals and objectives. Recommendations are made by an evaluation of statistical data reported from the courts and the information provided in applications.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health Provider Association

Authority: AS 47.30.520 - 620 Community Mental Health Services Act and AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: To enhance behavioral health services and quality of life for all Alaskans by providing leadership, which ensures high quality, affordable behavioral health services.

Target Group: This grant targets primary providers of behavioral health services in Alaska.

Resource Allocation: Funds for this grant are identified in the Division of Behavioral Health Federal Block Grant.

Criteria: The Alaska Behavioral Health Association is the only statewide association eligible under 7 AAC 78.030, whose members are the primary providers of behavioral health services in Alaska.

Appropriation: Grant funds are appropriated to the Division of Behavioral Health

Behavioral Health

Bethel Community Service Patrol and Sobering Center

Authority: AS 47.30.475-477 Grant-in-aid Programs; AS 47.30.520-620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act, and 7 AAC 71.010-300 Community Mental Health Services; 7 AAC 29 State Standards for Alcoholism Programs and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Community Service Patrol is an integral part of a multi-faceted service system designed to provide protection, identification, and referral for treatment for the targeted population. The Sobering Center will provide a more appropriate and preferable setting than the local correctional facility or emergency room. At the Sobering Center, these consumers will also be screened and will receive case management services to connect them to other services such as referrals for Substance Abuse assessments, Mental Health Assessments and referrals into substance abuse treatment and mental health treatment.

Target Group: The targeted population is chronic inebriates in need of detoxification services.

Resource Allocation: The Bethel region has been identified by the AMHTA as a target area for specialized chronic inebriate services due to the large number of Title 47 protective holds that result in people being taken to local correctional facilities or hospital emergency rooms.

Criteria: Available data documenting incarcerations associated with protective custody holds demonstrates that the City of Bethel has one of the highest incidences of protective holds in the State. Because of this, the Alaska Mental Health Trust Authority (AMHTA) and Division of Behavioral Health have identified the region as a priority for additional program efforts.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

RDU: Behavioral Health

Bridge Home

Authority: AS 37.14.041 and AS 47.30.056 Use of the Mental Health Trust Settlement Income Account; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The Alaska Mental Health Trust Authority allocated funding for grants to provide rental subsidies and related housing costs, as well as residential support services, for adult individuals. Participants will receive intensive, on-site residential support services and living skills development, as well as supportive employment training. 24-hour outreach services will be available to respond in time of need. This program provides funding to address a critical gap in our system for long-term housing assistance to a population that is excluded from current programs. Clients are offered a chance to demonstrate the ability to remain in stable housing and reestablish eligibility for the HUD Housing Choice Voucher program.

Target Group: The Bridge Home program targets adults who are exiting institutions with a serious, chronic mental illness and a history of cycling from the Department of Corrections, Alaska Psychiatric Institute and homelessness.

Resource Allocation: Services will be provided in the Anchorage area with a single grant to provide services to the highest density target population.

Criteria: Program goals include: ensuring public safety; reducing criminal and clinical recidivism; providing a supported housing alternative to corrections; assisting clients to achieve self-sufficiency by accessing mainstream resources, such as a social security benefits and federal housing subsidies; and demonstrating the overall cost savings to the State of Alaska for the use of supported housing versus institutionalization.

Appropriation: Funding is appropriated to the Division of Behavioral Health.

Bring the Kids Home

Authority: AS 18.08.010 Emergency Medical Services - Administration; AS 47.30.475 - 477 Grant-in-aid program; AS 47.30.520 - 620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; and 7 AAC 71.010 - 71.300 Community Mental Health Services; 7 AAC 29 Uniform Substance Abuse Treatment Standards for Facilities and Programs; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The program goal is to enhance or establish an array of services statewide through pilot projects to ensure that all children in out-of-state custody have appropriate treatment options within their community or close to their families. Having treatment options and family support within their own community enhances the child's likelihood of success for returning home. Pilot projects include enhancing in-home treatment services and resources for the prevention of crisis situations; crisis nursery/treatment preschool; individualized support services for transitional aged youth 16-21; mental health respite/stabilization homes; treatment resource homes; therapeutic group homes; and individualized high risk therapeutic group homes.

Target Group: The program serves children in out-of-state treatment care; children aged 1-10 in need of crisis treatment, and transitional aged youth, aged 16-21, in need of individualized support services. The program also provides in-state treatment facilities and programs to enable children currently in out-of-state treatment to return and to avoid further out-of-state placements due to the lack of appropriate programs.

Resource Allocation: Programs and funding have been allocated statewide.

Criteria: Eligibility criteria for this program includes the criteria found in 7 AAC 78.100, and requires the applicant have the ability to bill Medicaid. Applicants, as well as their proposed project partners must have prior experience providing similar services.

Appropriation: Division of Behavioral Health and the Alaska Mental Health Trust Authority.

Chemical Dependency Professionals Certification

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: This grant provides a certification process in Alaska for substance abuse counselors, clinical supervisors, and administrators. The grantee also reviews and approves all trainings required for the certification process.

Target Group: The grant serves individuals desiring certification for the provision of substance abuse services within the state of Alaska.

Resource Allocation: Resources are specifically directed for the support of the certification process.

Criteria: The grantee is the only entity in Alaska providing substance abuse certification services according to the standards set by the National Association of Addictions Professionals.

Appropriation: Grant funds are appropriated to the Division of Behavioral Health

Behavioral Health

Comprehensive Behavioral Health Prevention and Early Intervention Services

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; AS 47.37.045 Community Action Against Substance Abuse; AS 47.30.475 Grant-in-aid program; AS 47.30.470-AS 47.30.500 Alcoholism and Drug Abuse; Public Health Service Act, as amended, Section 501-05 (42 U.S.C. 290aa); and 7AAC 78 Department of Health and Social Services Grants

Priorities: The goal of this program is to provide comprehensive, integrated behavioral health prevention and early intervention services related to substance use and abuse, suicide, fetal alcohol spectrum disorders, youth development and resiliency, and promotion of community, family and individual wellness across Alaska. This program is representative of the new focus of Division of Behavioral Health on a broader behavioral health direction to integrate social and health services into intertwined holistic services that will lead to improvement in our suicide rates, family wellness, reduced drinking among teens and adults, healthy pregnancies free of alcohol-related disabilities, and stronger and healthier communities, families and individuals.

Target Group: Services are provided statewide, focusing on prevention and early intervention services across the life span (all ages). Primary focus will be on the individuals we know are at higher risk, including children whose parents have a problem with alcohol and/or drug addiction and dependency. Attention will be given to regional location of grant programs, making sure there is a fair distribution of grant funds across the state and among rural and urban populations.

Resource Allocation: Funding is from a combination of federal funding, general funds and alcohol tax funds. A 10% match is required except where reduced by approved exemption.

Criteria: Eligible applicants include nonprofit organizations; municipalities and Regional Educational Attendance Areas or other political subdivisions of the state; other State agencies; Alaska Native Tribes; or a combination of these entities. Funding is issued through a statewide competitive solicitation process. Proposals are solicited that address the goal of promoting communities utilizing effective practices and partnerships.

Proposals are categorized in four (4) categories based on community size and agencies offering multi-programs or programs to multi-communities. Proposals must contain tangible evidence of participation in community association, partnership or collaborative agreements that will enhance the applicants' ability to achieve program goals and desired outcomes.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health

Comprehensive Behavioral Health Treatment and Recovery Program

Authority: AS 47.520-620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 71.010-71.300 Community Health Services; 7 AAC 29 State Standards for Alcoholism Programs; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Grants are intended to support integrated treatment through community coalitions of providers, across the spectrum of behavioral health services including: psychiatric emergency services; services to adults with serious mental illness; services to seriously emotionally disturbed youth; services for individuals with co-occurring mental health and substance use disorders; individuals with substance abuse disorders - including pregnant women, IV drug users, women with dependent children, youth, and other persons and families whose presenting problem is addiction to, dependency on, or chronic disabling use/abuse of alcohol and other drugs, including prescribed and over-the-counter medications and household/general use products that contain inhalant chemicals and substances.

Target Group: Services are provided statewide, focusing on treatment across the life span (all ages).

Resource Allocation: Programs and funding are allocated statewide.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 Grant-in-aid program and AS 47.30.540 eligible local community entities.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health**Evidence Based Practices**

Authority: AS 47.30 Mental Health; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Evidence Based Practices (EBP) are those programs that are scientifically tested to demonstrate that they improve client outcomes. Integration of mental health and substance abuse treatment services, an EBP, was the first major step in developing a phased statewide behavioral health system. Projects under this program represent additional steps towards implementing program designs that current evidence suggest will be the most successful therapeutic and cost effective program models.

Target Group: Women and Children programs deliver services for addressing special treatment needs of women with children, for women with substance abuse problems: health services, mental health treatment, child care, transportation, safe housing and parenting skills training, as well as problems arising from histories of domestic violence and sexual assault.

Youth with Families programs deliver services for adolescents and their families, addressing unique treatment needs of adolescents and issues that play significant roles in their lives, such as cognitive, emotional, physical, social and moral development, and family and peer environment.

Illness Self-Management & Recovery refers to peer-facilitated services to help people cope with mental illness more effectively and facilitate their ability to care for themselves. Collaboration between consumer organizations and community mental health centers are encouraged to maximize resources, and share expertise.

Supported Employment - Competitive work in integrated work settings, consistent with the resources, priorities, abilities, and informed choice of individuals for whom competitive employment has not traditionally occurred, has been interrupted or intermittent as a result of a significant disability.

SED Children and Youth with FASD program promotes development of an Alaskan model, combining promising practices in wraparound for children and youth with SED, with research contributing to the evidence base of best practices for treating children with FASD. This project is intended to provide needed individualized services, and add to the evidence base for promising practices for children and youth with these multiple diagnoses.

Resource Allocation: Services are solicited statewide.

Criteria: Grantees provide independent project evaluation to assess the process and outcome of Evidence Based Practices delivered. Evidence Based Practices are those practices for which there is consistent scientific evidence showing that they improve client outcomes.

Appropriation: Grant funds are appropriated to the Division of Behavioral Health.

Behavioral Health**Family Wellness Warriors Initiative**

Authority: AS 47.30.470-500 Alcoholism and Drug Abuse; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Family Wellness Warriors Initiative (FWWI) seeks to address the devastating problems of domestic violence, abuse, and neglect in our Alaska Native communities. Its purpose is to equip organizations and individuals to effectively address the spiritual, emotional, mental, and physical effects of domestic violence, abuse, and neglect. FFWI's encourages wellness in each of these areas in the individual, the family, the community, and the world in where participants live:

- Families and Communities
- With hearts open to changes
- Working together with others through education and training
- Instilling hope for restoration and wellness

Target Group: Family Wellness Warriors Initiative targets the Alaska Native and American Indian populations of Alaska, but all individuals, regardless of race, gender, or religion can apply for services. The Family Wellness Warriors Initiative (FWWI) is a movement that brings together leaders of the Alaska Native Community, the faith community, regional corporations and agencies, health care providers, and many other interested people, in an effort to restore wellness to the Alaska Native Community. It specifically addresses all forms of violence that occur within the family. These include child abuse and neglect, sexual abuse, vulnerable adult abuse and neglect, domestic violence, and adult sexual assault.

Resource Allocation: Funds available for this grant are anticipated to total \$400,000 per year. The match requirement is 10% for this grant or \$40,000.

Criteria: The FWWI is currently providing services to the community of Dillingham. These funds will provide year 3 services to Dillingham and will begin an initial community readiness, planning and implementation of services in Bethel. Both communities will be served during year one. Future communities will be selected based on community request for services and meeting the program guidelines and readiness to embrace the FWWI model of comprehensive service delivery.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health

Behavioral Health**Independent Case Management and Flexible Supports**

Authority: AS 47.30.520-620 Community Mental Health Services Act; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Independent Case Management offers an option, especially in larger communities, of case management services by independent entities as an alternative to services from local community mental health centers. This allows consumer choice for this crucial service, in turn promoting increased accountability in the system of care. Independent case managers help initiate and attain appropriate housing, and employment services, along with other community support services.

Flexible Support Services are linked with the Recovery by Choice concept, which was designed to reduce recidivism at the Alaska Psychiatric Institute. The intention is to bring intensive services in a community setting to people identified as at risk of re-hospitalization and is an adaptation of assertive community treatment models across the nation. Flexible Support Services are also designed to validate consumers' recognition of their need and understanding of necessary and effective services prior to the existence of an emergency situation. Funding for these services would be available only if other sources are not available in a timely manner. Eligible services could include medications, psychiatric care, counseling, peer support, medical care, housing or other emergent necessities.

Target Group: Serious mentally ill person means a person who is 18 years of age or older and who satisfies both of the following criteria:

1. Must be diagnosed as having a major Psychotic or Mood Disorder or another serious persistent mental disorder; and
2. Must have impaired role functioning, consisting of at least two of the following:
 - a. Social role: an inability to function independently in the role of worker, student, or homemaker;
 - b. Daily living skills: an inability to engage independently in personal care (grooming, personal hygiene, etc.) or community living activities (handling personal finances, using community resources, performing household chores, etc.); or
 - c. Social acceptability: an inability to exhibit appropriate social behavior, which results in demand for intervention by the mental health and/or judicial system.

Resource Allocation: Independent Case Management funds were initially provided for startup costs that transition to Medicaid billing as agencies establish operations.

Criteria: The intent of this project is prevention of institutionalization, promoting service effectiveness, choice, recovery, and accountability, all within a consumer-centric perspective.

Appropriation: Funds are appropriated to the Division of Behavioral Health.

Behavioral Health

Integrated Treatment of Children and Families with Trauma History

Authority: AS 47.30.520 - 620 Community Mental Health Services Act; 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: The program services will directly address trauma as the core issue for all presenting behavioral, learning and emotional problems. All presenting problems, emotional disturbances, and diagnosed disorders including (but not limited to) substance abuse and dependence, delinquent activity and conduct disorders, shall be addressed wholly within an integrated treatment paradigm.

Target Group: The program services are for trauma specific screening, assessment, and treatment services to children and their families identified as having an immediate, recurring or past history of trauma experiences.

Resource Allocation: This program is open to providers statewide without regional allocations. The Division of Behavioral Health will fund one project.

Criteria: The provider's delivery strategies will be an innovative approach to service delivery.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health**Intensive Outpatient Substance Abuse Treatment Services**

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Grant Programs

Priorities: Provide intensive outpatient treatment services to individuals in the Anchorage Area. Outpatient Level II.5 (Intensive Outpatient) programs generally feature 20 or more hours of clinically intensive programming per week as specified in the client's treatment plan. While receiving services clients may choose to live with family/friends or in other supportive housing within the community. These services will form an important part of Alaska's effort to address its number one health problem and assist in the creation of an environment in which Alaskans can live free from the negative consequences of alcohol and other drug use. Services must promote Evidence-Based (EB) Best Practice, an Emerging/Promising Practice (EPP), or Alaska Values Based Practice. Services include training regarding fidelity to the EP/EPP or Alaska Values Based Practice models and include evaluation components.

Individuals cannot be treated in isolation and every effort must be made to include significant others in the treatment process. The grantee must include the individuals' families (parents, spouses, significant others, children, siblings, other family members) and employers in the treatment process, when possible, to maximize positive outcomes.

Target Group: Clients in the Anchorage area referred from API, Dept. of Corrections, Therapeutic Coords, and Public Assistance, with co-occurring mental health and substance use disorders.

Resource Allocation: \$188,550 for the remainder of the first year, and \$452,500 each year for the next two years (FY10 - FY12)

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 and AS 47.30.540.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Palmer Therapeutic Court

Authority: AS 47.30.520-620 Community Mental Health Services Act; AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 71.010-71.300 Community Mental Health Services; 7 AAC 29.010-940 State Standards for Alcoholism in Programs and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: To provide intensive case management and timely access to appropriate treatment services in the Palmer-Wasilla area for Palmer Therapeutic Court participants who experience co-occurring disorders; and to promote wellness and reduce recidivism.

Target Group: Participants in the Palmer Therapeutic Court with co-occurring mental health and substance abuse disorders from the Mat-Su region, including Palmer, Wasilla and other communities in the catchment area.

Resource Allocation: The need to expand co-occurring substance abuse treatment capacity for therapeutic court participants has been identified by the Alaska Mental Health Trust Authority's Disability Justice Workgroup. This is a program funded through the Alaska Mental Health Trust Authority and the Division of Behavioral Health. Resources are allocated to the Palmer-Wasilla area based on data received from local treatment providers and the Palmer Therapeutic Court case management system.

Criteria: Proposed services are evaluated based on the criteria established in competitive solicitation, according to the criteria required in 7 AAC 78.100.

Appropriation: Division of Behavioral Health and the Alaska Mental Health Trust.

Behavioral Health

Rural Human Service System

Authority: AS 47.30.470-500 Mental Health; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The program was developed in response to the critical need for a stable system of behavioral health providers in rural Alaska by hiring, training, supporting, and supervising culturally competent village-based counselors, and counselors that serve relocated villagers. The program provides the opportunity for rural people to achieve their goal of helping their own people. Training is provided through the Rural Human Services Training Program in the University of Alaska Fairbanks, College of Rural and Community Development, Interior-Aleutians Campus.

Target Group: Eligible applicants include substance abuse programs, community mental health centers, and other human social service programs whose service areas include villages, usually with a predominantly Alaska Native population.

Resource Allocation: Resources are designated according to the following service priorities:

- 1) Programs currently funded and adequately performing;
- 2) Expansion to new regions of the state;
- 3) Expansion of existing grantees to allow for the addition of villages not currently serviced by RHS counselors; and
- 4) Funds to non-rural agencies for tuition, room/board, and travel costs related to attending training.

Criteria: Criteria for allocation of funds for these services are: 1) Those programs working to fulfill the goal of a counselor in every village of rural Alaska; 2) Those programs sending RHS graduates to the RHS II training program; 3) Those urban programs serving people relocated from rural Alaska.

Criteria for awarding grants are derived from statute and regulation. Evaluation of applications includes proposed costs, project description and goals. Recommendations are based on evaluation of the information provided in applications.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Senior Outreach, Assessment and Referral Project (SOAR)

Authority: Under the authority of AS 47.30.520 – 620, the Community Mental Health Services Act, AS 47.376 Uniform Alcoholism and Intoxication Treatment Act and AS 47.30.465 Grant-in-Aid Program Alcoholism and Drug Abuse; 7 AAC 78 Grant Programs, and 7 AAC 29, State Standards for Alcoholism Programs

Priorities: This program will support neighborhood and community gatekeeper training and intervention programs to help identify seniors in need of mental health and/or substance abuse treatment services or other health care intervention. This project will assist Alaskan seniors to achieve or maintain the principles expressed in the Commission's vision of older Alaskans' quality of life. Agencies awarded funding will coordinate with allied service providers in their communities - local project staff will train community gatekeepers to identify vulnerable seniors and connect with them in non-traditional settings to provide assessment and referral to treatment resources. The agencies will also offer community education and outreach, and will work with primary care providers to enhance behavioral health screening opportunities. The project will also collect data on client needs, services provided, individuals trained, and services that are needed but unavailable in their communities.

Target Group: Alaskans age 60+.

Resource Allocation: Program and funding are allocated statewide.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 Grant-in-aid program and AS 47.30.540 eligible local community entities.

Specialized Detoxification and Residential Treatment

Authority: Authority: AS 47.05.010- Community Mental Health Services Act; AS 47.30.475 Grant-in-aid program; 47.37 Uniform Alcoholism and Intoxication Treatment Act, including AS 47.37.170 Treatment of Intoxicated Persons and AS 47.37.180-205 Voluntary and Involuntary Commitment; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Services are provided in a semi-secure facility to serve individuals who either meet the criteria for or are involuntarily committed under Title 47 for detoxification, substance abuse, and co-occurring treatment, with the goal to make the transition from detoxification to residential substance abuse treatment as smooth as possible.

Target Group: The service delivery area is Anchorage and the target group are those at very high risk of harm due to substance dependence and frequently experiencing co-occurring mental illness and/or medical conditions and needing a secure and protective setting that is an alternative to incarceration.

Resource Allocation: Programs and funding are allocated to Anchorage.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 Grant-in-aid program and AS 47.30.540 Eligible local community entities.

Behavioral Health**Substance Abuse Treatment for the Office of Children's Services Engaged Families**

Authority: AS 47.30.520 – 620, the Community Mental Health Services Act and AS 47.37, Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 78 Grant Programs

Priorities: The Uniform Alcoholism and Intoxication Treatment Act provides for community-based substance abuse treatment to intervene in a person or family's current situation and addresses immediate and continuing needs until recovery is possible without ongoing program assistance. Services must be provided, either directly or by benefit of a collaborative agreement with allied providers, in a way that meets the individual needs of all persons admitted. While receiving services clients may choose to live with family/friends or in other supportive housing within the community. In support of the description of proposed service strategies, applicants must include a timeline for implementation of those strategies as an appendix to their proposal. Applicants must demonstrate a thorough understanding of the grant program goals and outcomes in the development and presentation of their strategies for service delivery.

Target Group: The grantee will provide case manager recovery support staff to work specifically with OCS referred families and "case manage clients through the treatment process".

Resource Allocation: Programs and funding are allocated for Anchorage and for Fairbanks.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 Grant-in-aid program and AS 47.30.540 eligible local community entities.

Supported Employment

Authority: AS 47.30.520 - 620 Community Mental Health Services Act; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Grants are intended to implement Supported Employment as an Evidence Based Practice which is defined as competitive work in integrated work settings, consistent with the strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice of the individuals. It is for individuals with the most significant disabilities for whom competitive employment has not traditionally occurred; or for whom competitive employment has been interrupted or intermittent as a result of a significant disability. The Department's goal is to implement Supported Employment pilot projects (SAMHSA/Evidenced Based Practices model), provide training in the model, and evaluate the effectiveness of the projects.

Target Group: Adults with a serious mental illness; many of the clients may also have a co-occurring disorder related to substance abuse.

Resource Allocation: This program funded through the federal CMHC block grant and the Alaska Mental Health Trust Authority and is an Evidenced Based Practice (EBP) that is outcome based on scientific evidence to promote recovery and self-sufficiency to this population.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100, as well as the grant in aid process as provided for in AS 47.30.475 and AS 47.30.540.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Therapeutic Court

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act; 7 AAC 29.010-940 State Standards for Alcoholism in Programs and 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: Close coordination with the drug court team, timely provision of assessments that are age, gender, developmentally and educationally appropriate; referrals for families; provision of intensive outpatient and/or outpatient treatment utilizing evidence based best practices for defendants that are referred by the drug court; identification of family issues in clients' treatment plans; provision of evidence based parenting curriculum; assistance to family members in accessing treatment, education or self-help groups; ongoing communication with the drug court team and assurance that those completing treatment have adequate and appropriate levels of continuing services and support.

Target Group: Program will serve individuals residing in the Anchorage service area who are referred by the Anchorage Felony/DUI Court and focuses on a very high risk population of chemically dependent clients.

Resource Allocation: Resources are intended to support statewide services.

Criteria: Over a decade of research indicates that therapeutic court reduces crime by lowering re-arrest and conviction rates, improving substance abuse treatment outcomes, and reuniting families, and also producing measurable cost benefits. The Anchorage Therapeutic court caseload is high volume, referring 20 or more individuals per month for treatment services.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

Behavioral Health

Therapeutic Justice Support

Authority: AS 47.37 Uniform Alcoholism and Intoxication Treatment Act and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Therapeutic courts seek to solve underlying problems that generate repeated encounters with the criminal justice and behavioral health systems. Combining behavioral health services with the coercion and structure of the justice system can break the pattern of recidivism that normally occurs for those offenders who end up being incarcerated.

Target Group: Services support therapeutic justice throughout Alaska's Criminal Justice System in developing, implementing and significantly expanding therapeutic court for substance abusing offenders throughout the state.

Resource Allocation: Anchorage

Criteria: Provide support to both the therapeutic court teams as well as the participants by coordinating with other agencies to arrange training and provide scholarships to team members in order to maximize the use of available resources.

Appropriation: Grant funding is appropriated to the Division of Behavioral Health.

RDU: Behavioral Health

Component: Alcohol Safety Action Program

Finance and Management Services

Community Initiative Grants

Authority: 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: These grant funds are to be used for essential human services in areas ineligible for the Human Services Community Matching Grant. AS 29.60.650 (1) defines essential human services as follows: Essential human services and services have the meaning given social services in AS 47.75.060 except that they include only services whose unavailability would subject persons needing the services to serious mental or physical hardship.

Target Group: Target groups are persons in need of essential human services in areas ineligible for the Human Services Community Matching Grant (HSCMG) program. The eligible target population includes, but is not limited to: children, elderly, families and individuals in need.

Resource Allocation: The allocation will be based on the combined population of communities within each region excluding those communities that currently receive Human Service Community Matching Grant funds. Population will be determined by the Department of Commerce, Community, and Economic Development based on the latest figures of the United States Bureau of the Census or other reliable population data.

Criteria: Grantees are community-based, qualified applicants able to provide direct services in a region. Funds may be reallocated based on the ranking of all proposals submitted with the intent to distribute the funds equitably and broadly throughout all five designated regions.

Appropriation: Grant funding is appropriated to Department of Health & Social Services.

Human Services Community Matching Grants

Authority: Authority for these grants derives both from AS 29.60.600-650, Human Services Community Matching Grants and 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The provisions of AS 29.60.600 - 620 mandate that these grants be used for essential human services. AS 29.60.650 (1) defines essential human services as follows: Essential human services and services have the meaning given social services in AS 47.75.060 except that they include only services whose unavailability would subject persons needing the services to serious mental or physical hardship.

Target Group: The geographical areas that currently qualify under AS 29.60.600 are the Municipality of Anchorage, the Matanuska-Susitna Borough and the Fairbanks North Star Borough. Target groups are persons in need of essential human services.

Resource Allocation: The amount allocated for this program is appropriated annually by the Alaska Legislature and allocated according to the most recent population figures, certified annually by the Department of Commerce, Community & Economic Development.

Criteria: The Human Services Community Matching Grants are designated grants to municipalities with a population base minimum required for participation in this program. Applications are due from eligible municipalities prior to October 1st of the preceding year.

Appropriation: Grant funding is appropriated to Finance and Management Services.

Health Care Services

Anchorage Project Access

Authority: 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Provides for free health care for the medically underserved in Anchorage through the creation of a comprehensive coordinated network of community partners and health care providers that donate health care services, products or funding. Patients are carefully screened for income eligibility, and cannot be eligible for other programs.

Target Group: Uninsured and underinsured healthcare patients who reside within the Municipality of Anchorage. Additionally, 10% of the specialty-care patients served by APA may be residents of other Alaskan communities where primary care physicians are to be participating in Project Access or a similar program.

Resource Allocation: A single award will be made.

Criteria: Only a single potential grantee has the knowledge, capability, or expertise to accomplish the goals of the grant project.

Appropriation: Grant funding is appropriated to the Division of Health Care Services.

Health Care Services

Children's Health Improvement Program Reauthorization Act (CHIPRA) Quality Demonstration Grant

Authority: 7 AAC 78 Grant Programs

Priorities: The State of Alaska is participating in a tri-state collaborative effort with Oregon and West Virginia on the Children's Health Improvement Program and Reauthorization Act Quality Demonstration Project. The project goals are (A) testing of federal government proposed measures of quality of children's care; (B) promoting the use of Health Information Technology (HIT) and Health Information Exchanges (HIE); (C) improving Medical Home Approaches to Child Care.

Target Group: Eligible applicants are providers serving children and adolescents (ages 0 - 21) enrolled in Medicaid and Denali Kid Care.

Resource Allocation: The service delivery area is statewide, with efforts to include participating practices representative of urban and rural, Tribal and non-tribal areas and providers.

Criteria: The Department will issue a non-competitive solicitation to this agency under 7 AAC 78.095 (a) (2) to is an agency that is the most remote community health center in Alaska with both a comprehensive care model and an existing electronic health record. This agency serves as a unique opportunity to accomplish the intent of the federal grant in such a rural setting. A competitive solicitation under 7 AAC 78.050 will be issued to seek additional demonstration sites to participate in all three categories.

Appropriation: Grant funding is appropriated to the Division of Health Care Services.

Health Care Services**Community Health Aide Training and Supervision**

Authority: AS 44.29 Department of Health & Social Services; AS 18.28.010 Community Health Aide Grants; and 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: Services are for the training and supervision of Community Health Aides (CHAs) and Community Health Practitioners (CHPs). The training is established by and monitored by the Academic Review Committee and the Review and Approval Committee; committees established by and under the direction of the Community Health Aide Director's Association.

Target Group: CHA/Ps are located predominantly in the rural areas where more advanced medical personnel are unavailable. These grants target the CHA/Ps themselves and the rural population they serve. All regional and local health organizations that receive contract funds from the federal government for a community health aide program are eligible for funding through this program. The program provides funding for CHAs to complete approximately 2,500 training courses, including CHA training, ETT/EMT training, and continuing medical education. Additionally, CHA supervisors are expected to make over 15,000 contacts with CHAs as part of training and supervision. Finally, CHAs are expected to have close to 300,000 patient encounters during each fiscal year. These projections are based on required self-reporting.

Resource Allocation: The funding level is derived from a formula established during the 1985 legislative session. It is adjusted based on the amount of funding appropriated.

Criteria: The potential grantee must have a contract with the Indian Health Service for community health aide services.

Appropriation: Grant funding is appropriated to the Division of Health Care Services.

Health Care Services

Community Health Centers - Senior Access Program

Authority: 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The goal of the Community Health Centers Senior Access Program (CHC-SAP) is to increase the delivery of primary care to seniors (persons age 65 years & older) as provided by Alaska's Community Health Center (CHC) agencies. The funding is intended to help alleviate the strain on CHCs resulting from their provision of medical homes for seniors who have been refused care by physicians in private practice due to low Medicare reimbursement rates.

Target Group: Alaskan seniors (persons age 65 years & older) who need primary healthcare services. The proposed service delivery area is statewide, as determined by the catchment areas of participating Section 330 CHCs. Only those CHCs that receive US Public Health Service, Section 330 funds from HRSA-Bureau of Primary Health Care are eligible to receive state funding from the CHC Senior Access Program.

Resource Allocation: Funding distribution is to Alaska Community Health Centers currently receiving federal funds via the US Public Health Services Act, Section 330.

Criteria: Grantees must propose strategies to increase delivery of direct services to persons age 65 years & older, and describe the connection between their proposed activities and the increase in the delivery of direct-care services to seniors. These funds are intended to increase patient direct-services; they are not intended to increase general organizational capacity per se.

Appropriation: Funds are appropriated to the Division of Health Care Services.

RDU: Health Care Services

Health Care Services

Hospital Clinical Data Program

Authority: AS 44.29.020 Department of Health & Social Services, Duties of Department, 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Funds from the Hospital Clinical Data Program support the implementation of a voluntary hospital discharge, outpatient, and emergency room data reporting system for the twenty-four acute care hospitals throughout Alaska. Data is used by the Department to assess health status and needs of the population. The grant provides the framework for establishing work plan, reporting expectations, and performance objectives.

Target Group: Twenty-four acute care hospitals that serve over 360 communities throughout Alaska.

Resource Allocation: The service delivery is statewide and will affect health care agencies, professional, and clients statewide.

Criteria: As the single statewide association of hospitals, the Alaska State Hospital and Nursing Home Association represents the state's hospitals and is uniquely situated to accomplish the goals of the grant program. The grantee's active participation in coordinating with Alaska's hospitals to encourage timely data submission and management of the contract with the data clearing house is crucial to the success of the program in Alaska.

Medicare Rural Hospital Flexibility Program

Authority: 42 U.S.C. 1395i-45, SEC. 1820 Medicare Rural Hospital Flexibility Program, AS 44.29 Department of Health & Social Services; and 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: To provide support for the Medicare Rural Hospital Flexibility Program, specifically the program goals related to support for (1) quality improvement, (2) operational and financial improvement; and (3) health system development and community engagement. The overarching purpose of the program is to stabilize and strengthen small, rural hospitals and the health care systems in which they play a primary role.

Target Group: Hospitals and communities in rural Alaska, which serve the approximately 250,000 Alaskans who live outside of Anchorage, Fairbanks, and Juneau.

Resource Allocation: The State receives the grant from the Federal Office of Rural Health Policy, and sub grants a portion of the funds for this program.

Criteria: There is a single entity in the state that represents the state's hospitals. The grantee's active participation is identified in the federal grant criteria and in Alaska's grant application as crucial to the success of the Medicare Rural Hospital Flexibility program in Alaska.

Appropriation: Grant funding is appropriated to the Division of Health Care Services.

Health Care Services

Primary Eye Care & Rehab for Rural Alaskans

Authority: Department of Health & Social Services Grant Programs 7AAC 78

Priorities: The goals of this program are to provide primary eye care and vision related rehabilitation to certain Alaska communities who currently do not have access to these services. These services will be provided by collaboration with local Community Health Center (CHCs) clinics. It is expected that an eye doctor will visit each of the selected sites annually. Persons being served in this program will include: 1) children 3-8 years old to identify amblyopia and other sight issues requiring correction; 2) patients of CHCs with diabetes or other high-risk conditions for vision problems; and 3) patients with uncorrectable vision loss.

Target Group: This program serves rural Alaskans living in communities that lack eye care services, are excessively distant from eye care services, and have a CHC that will provide available space and in-kind support for vision screening, exams, and vision rehabilitation services.

Resource Allocation: Funding is awarded to a single agency which will collaborate with CHCs willing to provide the services to the target group mentioned above.

Criteria: Rural communities receiving services under this program will be determined by the Joint Vision Awareness Committee, which will select CHC clinic sites based on the lack of availability of eye care, distance to the closest provider of vision services, and the clinic's ability to provide space and in-kind support of the vision services.

Appropriation: Grant funds are appropriated to the Division of Health Care Services

Juvenile Justice

Enforcing Underage Drinking Laws

Authority: AS 47.05.010(7) Duties of the department - Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; AS 47.14.010(6) General Powers over Juvenile Institutions; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The program's priority is to support a reduction in underage drinking. The method of accomplishment is to educate and mobilize youth in addressing underage drinking, including training of youth on state and federal policy with respect to underage drinking; environmental prevention strategies; media literacy and advocacy; and peer mentoring.

Target Group: EUDL projects will target youth under the age of 21 with services to be delivered in Nome and also in the Southeast Region.

Resource Allocation: Resources are allocated based on a demonstration of need, program capacity, and level of youth-led involvement.

Criteria: Prior experience in youth education and mobilization specific to underage drinking is required. Mobilization plans must include development of statewide media campaigns; in-school peer presentations; community presentations; and a cooperative working relationship with the Department of Public Safety, Alcohol Beverage Control Board investigators.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

Juvenile Justice**Enforcing Underage Drinking Laws/Youth Courts**

Authority: AS 47.14.010(6), General powers of department over juvenile institutions; AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The program's goal is the development of a pilot program incorporating a federally funded program and a state funded program aimed at reducing underage drinking and youth crime: Enforcing Underage Drinking Law (EUDL) and Youth Courts. The coordination and implementation of the EUDL/YC program will necessitate close cooperation with the Bethel Community Diversion Panel.

Program services under the EUDL component will include a focus on education and mobilization of youth to address underage drinking. Education will include training of youth on media literacy and advocacy, state and federal policy with respect to underage drinking, environmental prevention strategies, and peer mentoring. Mobilization of youth will include: 1) in-school peer presentations about the effects of alcohol and the risks youth take in soliciting adults for alcohol; 2) community presentations about the effects of alcohol on youth; and 3) the development of a media campaign emphasizing a) social responsibility and liability of parents/adults providing alcohol to minors and b) peer-directed advertising addressing risks youth take in accepting alcohol from adults.

Program services under the Youth Court component include case screening, adjudication, disposition, and case management for youth referred for non-violent first or second misdemeanor offenses and/or status offenses. All cases handled by youth courts must be congruent with statutory authority, specifically AS 04.16.050(b)(1) and AS 47.12.400.

This program will also manage minor consuming alcohol (MCA) and minor in possession (MIP) cases from referral to completion.

Target Group: The program's target population consists of Bethel-area youth under the age of 18.

Resource Allocation: A need for services was identified in Bethel by community members and more than 10 local agencies, resulting in services to be provided through a single local agency working directly with the Bethel Community Diversion Panel.

Criteria: The agency must have prior working knowledge of the current Bethel Community Diversion Panel. Additionally, all cases handled by youth courts must be congruent with statutory authority, specifically AS 04.16.050(b)(1) and AS 47.12.400.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

Federal Formula Native American Pass-Through Grants

Authority: AS 47.14.010(6), General powers of department over juvenile institutions; AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The Division of Juvenile Justice receives and administers the Formula Grant through the Juvenile Justice and Delinquency Prevention Act of 1974 (JJDP Act). The priority is compliance with the JJDP Act's four core mandates: de-institutionalization of status offenders; sight and sound separation of juvenile and adult offenders; removal of juveniles from adult jails and lockups; and addressing disproportionate minority contact with the juvenile justice system.

Target Group: The target group is delinquent youth offenders or youth at risk of becoming delinquent.

Resource Allocation: The proportion of funds to be made available to eligible tribes or Alaska Native non-profit corporations is based on the proportion of the state youth population under age 18 residing in the geographic area in which the tribe performs law enforcement functions.

Criteria: Eligibility for these non-competitive grants is limited to Alaska Native organizations that provide law enforcement functions. The organizations must be in compliance with the four core mandates of the JJDP Act and must identify the juvenile justice needs to be served by the funds.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

RDU: Juvenile Justice

Component: Delinquency Prevention

Federal Formula Native American Pass-Through Grants

Juvenile Justice**Federal Formula Non-Secure Attendant Shelter Care Grants**

Authority: AS 47.14.010(6), General powers of department over juvenile institutions; AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The Division of Juvenile Justice receives and administers the Formula Grant through the Juvenile Justice and Delinquency Prevention Act of 1974 (JJDP Act). Formula Grant funds support a variety of grant programs that assist the State in maintaining compliance with the core requirements of the JJDP Act, i.e., de-institutionalization of status offenders; sight and sound separation of juvenile and adult offenders; removal of juveniles from adult jails and lockups; and addressing disproportionate minority contact with the juvenile justice system. Non-secure attendant care shelters assist the State in complying with the first three mandates by providing short-term staff-secure placement and facilities for youth who do not require secure detention. This provides an alternative to incarceration until a parent or legal guardian can be located or until the youth can be transported to another facility.

Target Group: The target group is youth who are in need of protective custody and/or youth who do not require secure detention.

Resource Allocation: Allocations are made to communities according to the service demand in each area.

Criteria: Whenever possible, applicants should be licensed youth centers. If a care facility is not available, applicants from other facilities that meet detailed service parameters established by DJJ may be acceptable.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

RDU: Juvenile Justice

Component: Delinquency Prevention

Juvenile Justice

Title V Local Delinquency Prevention Grants

Authority: Juvenile Justice and Delinquency Prevention Act of 1974; AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The 1992 reauthorization of the Juvenile Justice and Delinquency Prevention Act of 1974 (JJDP Act) added Sections 501-506, the Title V Local Delinquency Prevention Incentive Grants program. The purpose of these grants is to support delinquency prevention and early intervention programs in communities that comply with the core mandates of the JJDP Act: de-institutionalization of status offenders; sight and sound separation of juvenile and adult offenders; removal of juveniles from adult jails and lockups; and addressing disproportionate minority contact with the juvenile justice system.

Target Group: The target group is at-risk youth.

Resource Allocation: Consideration is given for geographic distribution of services.

Criteria: Eligible entities are restricted to city and borough governments, and Indian tribes that provide law enforcement functions and are recognized by the Secretary of the Interior. Applicants must have convened a local Policy Prevention Board and developed a comprehensive three-year Delinquency Prevention Plan. They must also provide a 50% cash or in-kind match. Awards are granted based on a statewide competitive process utilizing the guidelines set out in the Request For Proposals and evaluated according to the criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

RDU: Juvenile Justice

Component: Delinquency Prevention

Juvenile Justice

Workforce Development Project

Authority: AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: Priorities of the project are to provide case management services to give direction and support for those pre-release youth who are able to access services/programs outside the Nome Youth Facility (NYF) prior to release. The programs will focus on skill building, job-readiness, SMART Moves substance abuse prevention (Skills Mastery and Resistance Training), and community service learning projects. Case management will ensure the youth have the opportunity to learn new tools and skills to prepare them to enter the workforce and become engaged, participating community members upon return to their home communities.

Target Group: Target group for this program is pre-release youth at the Nome Youth Facility who are able to access services/programs outside NYF prior to release.

Resource Allocation: The delivery of services required under this program is expanded to rural Alaska with services provided in Nome through a single qualified organization.

Criteria: The awarded agency must be able to provide, for pre-release youth, programs focusing on skill building, job-readiness, SMART Moves substance abuse prevention (Skills Mastery and Resistance Training), and community service learning projects.

Appropriation: Funding is appropriated to the Division of Juvenile Justice.

RDU: Juvenile Justice

Youth Courts/Community Panels

Authority: AS 47.14.010(6), General powers of department over juvenile institutions; AS 47.05.010(7), Duties of the department, Services for the protection and care of homeless, dependent, and neglected children in danger of becoming delinquent; and 7 AAC 78, Grant Programs.

Priorities: The program's priorities are to prevent and control delinquent behavior, and to reduce further delinquent behavior. The means are through a broadened range of accountability-based services for youth who commit nonviolent first or second misdemeanor offenses.

Target Group: The target group is nonviolent juvenile offenders with no more than two misdemeanor offenses.

Resource Allocation: The Division seeks service delivery statewide. Resources are allocated based on demonstrated need and available data. Grant funding recommendations are made based on an equitable distribution of services throughout Alaska, taking into account the significant geographic and demographic extremes across the state. Allocations are made to communities with active youth courts/community panels, to communities developing youth courts/community panels, and also to providers of training and technical assistance to existing and new youth courts/community panels programs.

Criteria: Existing providers of direct services to communities that identify a need for development of local youth courts and community panels are eligible to submit applications. Direct services include screening, adjudication, disposition and case management. Grants to providers are awarded through competitive proposal solicitation. Project services must include the provision of training and technical assistance services, materials and expertise on beginning and effectively maintaining a youth court or community panel.

Appropriation: Grant funding is appropriated to the Division of Juvenile Justice.

Office of Children's Services

Alaska Childrens Trust (ACT)

Authority: ART III, Sec. 23 of the Alaska Constitution; AS 37.14.250 Grants (Alaska Children's Trust), and Department of Health and Social Services Grant Programs 7 AAC 78.

Priorities: The Alaska Children's Trust (ACT) grant program funds community-based prevention and family programs that address the root causes of child abuse and neglect with the intention to prevent and eliminate child abuse and neglect in Alaska.

Target Group: The ACT places special emphasis on funding proposals which provide services to rural, remote and Native communities.

Resource Allocation: The annual funding level for the ACT is based upon annual income earnings from the Trust fund. Grant awards are contingent upon legislative appropriations of funds to the ACT. The ACT also relies on gifts, bequests, and contributions of cash or other assets from individuals, corporate entities, and federal funds.

Criteria: Grantees are required to submit proposals in response to a competitive Request for Proposals. Award recommendations are based on the priorities of AS 37.14.200-270 and the criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Alaska Children's Trust Grantmaking Processes

Authority: 7 AAC 78 Grant Programs and Alaska Statute 37.14.200-270 Alaska Children's Trust

Priorities: The development of a simplified grantmaking process, set direction, define priorities and advise on integrating and streamlining systems for the provision of services utilizing Alaska Children's Trust (ACT) funds.

Target Group: Alaska Children's Trust services are statewide in scope.

Resource Allocation: Alaska Children's Trust Principle funds.

Criteria: The grantee will provide technical assistance, house the ACT Executive Director, and provide an appropriate level of administrative support; compensate staff dedicated to the ACT with provisions of benefits in accordance with personnel policies; facilitate financial oversight and tracking of grant expenditures; facilitate grantmaking functions for the Alaska Children's Trust; and provide financial and programmatic reports to the ACT on an agreed upon schedule.

Appropriation: Grant Funding is appropriated to the Office of Children's Services (Children's Trust Principal Funds).

RDU: Children's Services

Office of Children's Services

Alaska Transition Training Initiative

Authority: U.S. Department of Education (DOE) funding is awarded to the Alaska Department of Education and Early Development and is passed through to the Department of Health & Social Services. Funds are awarded to a non-profit agency chosen by both Departments for the provision of services under AS 44.29 Department of Health and Social Services, AS 47.20 Special Services for Certain Children, and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The U.S. Department of Education provides funding for the training of providers who help families whose children have disabilities with transition from the home-based Early Intervention/Infant Learning Programs (EI/ILP) to the local school district or Head Start program at the age of three. Training occurs at the community level with the local school district, parent representatives, EI/ILP and other relevant health, social service and educational agencies present. The Governor's Council on Disabilities and Special Education has identified this transition as a major concern for families in Alaska.

Target Group: The target populations are children with disabilities and their families in school districts, Head Start and EI/ILP programs and other related agencies statewide. Trainings are held in communities with multiple community-based teams receiving training during the year. Follow-up and technical assistance is provided to communities trained in prior years on an as-needed basis.

Resource Allocation: A single agency is funded to provide training services statewide to all EI/ILP grantees and other local agencies on a rotating-basis.

Criteria: Funds are awarded to a single agency most capable of meeting the goals and objectives of the grant project. The grantee is chosen in a collaborative selection process by the Departments of Health and Social Services and Education and Early Development as the entity that best meets the needs of departments, the school districts, and the EI/ILP and Head Start programs for this very specific type of training.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Children's Advocacy Centers

Authority: Juvenile Justice and Delinquency Prevention Act of 1974, Public Law 93-415; AS 47.17 Child Protection, and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: This program targets Alaska's major communities for the operation of child-friendly advocacy centers to provide, using a multi-disciplinary team approach, comprehensive investigations for children suspected of having suffered abuse.

Target Group: The target group is children suspected of having suffered physical and sexual abuse.

Resource Allocation: Resource allocation will support existing child advocacy centers and provide operational funding for the formation of advocacy centers in those communities with fully-functioning multi-disciplinary teams.

Criteria: The competitive process includes evaluation based on criteria established to advance the model of a coordinated response to child sexual and physical abuse.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Early Childhood Comprehensive Services (ECCS) Mental Health Consultation Project

Authority: AS 47.30.520-620, Community Mental Health Services Act; 7 AAC 71 Community Mental Health Services; 7 AAC 78, DHSS Grant Programs

Priorities: Primary services are to develop and facilitate an early childhood / mental health consultation system for children identified as at risk for development of Severe Emotional Disturbance (SED). Working cooperatively with local partners, service delivery will be determined on a case-by-case basis to reduce the possibility that these children will be expelled, and to prevent SED when possible.

Target Group: The target group is children, ages birth to six, identified as at-risk for development of SED.

Resource Allocation: Available resources will be fully allocated to the program's sole grantee.

Criteria: Under competitive solicitation, eligible agencies must also have experience in the delivery of similar services and the project director must be a mental health professional as defined in 7 AAC 71.990.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

RDU: Children's Services

Office of Children's Services

Early Childhood Mental Health (ECMH) Learning Network

Authority: AS 47.30.520-620 Community Mental Health Services Act; 7 AAC 71 Community Mental Health Services; 7 AAC 78 DHSS Grant Programs

Priorities: Program services will consist of the development and implementation of a statewide model for providing early childhood mental health (ECMH) consultation and technical assistance to the target population. Program services will focus on building workforce capacity to promote healthy social and emotional development in young children; to identify young children with mental health concerns and those at risk of or experiencing severe emotional disturbance; and to intervene with developmentally appropriate methods.

Target Group: The target population includes mental health clinicians, family support workers, early interventionists, medical providers, child protection supervisors, and others in the mental health care field who work directly with young children (birth through five years) and their families, and/or who provide support/consultation to early childhood programs.

Resource Allocation: Resources will be allocated to the sole provider of services under award.

Criteria: The competitive process is used to identify the proposing agency most capable of developing and implementing a statewide model for providing early childhood mental health consultation and technical assistance.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

RDU: Children's Services

Office of Children's Services**Early Intervention / Infant Learning Program Expansion Services Pilot (ARRA)**

Authority: Individuals with Disabilities Education Act (PL 102-119) (Federal regulation 34 CFR Part 303 Early Intervention Program for Infants and Toddlers with Disabilities); American Recovery & Reinvestment Act of 2009; AS 47.20.060-AS 47.20.290 (Special Services for Certain Children); and 7 AAC 78 (Grant Programs).

Priorities: To provide American Recovery and Reinvestment Act (ARRA) funds to three current Early Intervention / Infant Learning Program (ILP) grantees. It is intended that these grantees will act as pilot sites to test the expansion of ILP services to include children with a 25-49% developmental delay or eligibility through the Child Abuse Prevention and Treatment Act (CAPTA). The pilot grantees will use Stanley Greenspan's Social-Emotional Growth Chart and will collect data regarding family and child outcomes. The data will be used to determine the cost and method(s) used to potentially expand ILP services to children with developmental delays through the remaining ILP grantees statewide.

Target Group: The target population addressed in this project are children, birth to three-years old, (and their families) who experience a developmental delay, disability, diagnosed condition or are at significant risk for a delay. In addition, the pilot project seeks to allow children with substantiated reports of abuse to receive services through federal Part C funding in order to determine the effectiveness of including abuse and neglect as an eligibility category.

Resource Allocation: The pilot project will provide services in three areas of the state (Southeast, Eagle River/Cordova and Kenai/Soldotna). The federal law under IDEA requires that comprehensive early intervention services be available to eligible infants and toddlers and their families in all areas of the state. Upon the completion of the pilot project, it is anticipated that the increased services will be provided through ILP grantees statewide.

Criteria: ILP staff evaluated current high performing grantees with the capacity and workforce able to take on additional caseloads, as well as targeted diverse geographical locations. Based on their evaluation, ILP staff believes that three of the current ILP grantees are best suited to participate in the pilot project. Funds were allocated based on expected utilization rates and preliminary estimates of children to be served. ILP seeks to establish the pilot project with current ILP grantees because they have the knowledge and experience necessary to complete the project and provide the necessary resulting data.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Early Intervention/ Infant Learning Program

Authority: Federal Part C of Individuals with Disabilities Education Act (IDEA) (PL 105-17); 34 CFR Part 303 (Early Intervention Program for Infants & Toddlers with Disabilities); American Recovery & Reinvestment Act of 2009; AS 47.20 Special Services for Certain Children; 7AAC 23 Programs for Children with Disabilities; and 7 AAC 78 DHSS Grant Programs

Priorities: The purpose of the Early Intervention / Infant Learning Program (EI/ILP) is to enhance the developmental potential of children from birth to three who experience developmental delays or are at risk for them. The program integrates the early intervention services that are crucial in the first three years of life for children with special needs.

Target Group: The program serves families of infants who experience disabilities or special needs as well as those who are at risk for developmental delays. Services are available statewide.

Resource Allocation: As required by IDEA (the Individuals with Disabilities Act), comprehensive early intervention services are to be available to eligible infants and toddlers (birth through age three) and their families in all areas of the state. The statewide Early Intervention / Infant Learning Program currently has designated 20 service areas within Alaska. Applicants base their requests for funding on the need for services in the region for which they are applying. Funding recommendations aim to promote the equitable allocation of all funds.

Criteria: Grant applications require measurable goals and objectives, the proximity of the applicant to the population to be served, and the applicant's ability to employ early intervention providers.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Emergency Shelter Services for Youth

Authority: AS 47.10.011 Children in Need of Aid and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: Emergency Shelter services are needed for homeless runaways and at-risk youth. Services provided will consist of basic needs and will offer help with education, employment, health services, counseling and family mediation.

Target Group: The target group is homeless runaways and at-risk youth, ages 13-20, in the Anchorage area.

Resource Allocation: The service delivery area is Anchorage.

Criteria: Proposals are evaluated for the criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

RDU: Children's Services

Component: Residential Child Care

Emergency Shelter Services for Youth

Office of Children's Services

Family Contact Services Center

Authority: AS 47.17 Child Protection; and Department of Health and Social Services Grant Regulations 7 AAC 78.

Priorities: To provide visitation and transportation services for families with children in an out-of-home placement. The visitation center provides a safe, secure and confidential supervised environment with services to enhance the child-parent relationship and support reunification.

Target Group: The target population is families in the Anchorage Region who have children in an out-of-home placement.

Resource Allocation: Due to limited resources for this program, funding is currently prioritized in the OCS Anchorage Region which has the highest concentration of children in an OCS out-of-home placement.

Criteria: Awards are funded through the competitive solicitation of Request for Proposals. Criteria includes a sound logic model and evaluation plan, qualified staffing levels, extended hours of operation and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

RDU: Children's Services

Office of Children's Services

Family Preservation

Authority: Under AS 47.10 Children in Need of Aid; AS 47.17 Child Protection; AS 47.05.010 Duties of Department (DHSS); Title IV-B Subpart 2 Sec. 430 [42.U.S.C. 629](a); 7 AAC 78 Department of Health & Social Services Grant Programs; Adoptions and Safe Families Act (ASFA 11/19/97) to protect children by preventing and remedying repeated abuse, neglect and exploitation.

Priorities: To preserve children in their homes. Services are provided to families where risk factors have been identified that could lead to the transition of children to out-of-home settings. Family Preservation Services also support the reunification process for families where there has been an out-of-home placement.

Target Group: Referrals will come exclusively from the Office of Children's Services, who will have a case open for in-home services. Services will be provided to families with children where there has been a determination of high risk or safety threats present. Each member of the family should be considered when coordinating services, with special attention given to young children ages birth to three years.

Resource Allocation: The service delivery is statewide. Funding amounts are allocated based on population and community resources.

Criteria: Criteria includes a sound logic model and evaluation plan, qualified staffing levels, and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Family Support

Authority: Under AS 47.10 Children in Need of Aid; AS 47.17 Child Protection; AS 47.05.010 Duties of department (DHSS); and 7 AAC 78 Department of Health & Social Services Grant Programs; Federal Title IV-B Subpart 2 Sec. 430 [42.U.S.C. 629](a); Adoptions and Safe Families Act (ASFA 11/19/97) to support the development of community-based services that are prevention-oriented.

Priorities: Family Support services are community-based services that promote the safety and well being of children and families. The focus of the program is on primary and secondary prevention for young parents and families with children age birth to 12 years. Services will be provided to families with children where there have been allegations or concerns of child abuse or neglect that does not meet the safety threshold to require an Office of Children's Services' safety intervention, but the family needs supportive services to prevent future risks to child and family safety.

Target Group: The priority population is children referred by the Office of Children's Services who are at risk of child abuse or neglect and/or at possible risk of out-of-home placement.

Resource Allocation: The service delivery is statewide. Funding amounts are allocated based on population and community resources.

Criteria: Criteria includes a sound logic model and evaluation plan, qualified staffing levels, and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Independent Living

Authority: AS 47.10 Children in Need of Aid; AS 47.17 Child Protection, to support youth transition from foster care to self-sufficiency; and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The program priority is to establish long-term relationships between targeted youth and adult mentors for development of self-sufficiency skills necessary for independent living. Youth are supported in making successful transitions from foster care to independent living as young adults, with opportunity to access services and supports based on transition and exit plans developed in foster care.

Target Group: The target group is Anchorage-area youth age 14 and older currently in OCS custody, as well as those who were in custody on or after their 16th birthday and found eligible for transition support services.

Resource Allocation: Resources are allocated to the program's sole grantee.

Criteria: The competitive process will identify the agency best able to provide direct services and support to youth in and out of custody through the Anchorage Regional Office, as well as youth who relocate to Anchorage from other regions of the state.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

RDU: Children's Services

Component: Family Preservation

Office of Children's Services**Indian Child Welfare Act (ICWA) Compliance Program**

Authority: Indian Child Welfare Act of 1978, Adoption Assistance & Child Welfare Act, Adoption & Safe Families Act, AS 47.10 Children in Need of Aid; and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The intent of this program is to call upon the knowledge, expertise and resources of the twelve identified native regional non-profit organizations to improve the State's compliance with the Indian Child Welfare Act.

Target Group: The target group consists of the communities served by the regional non-profit tribal organizations identified in the Final Settlement Agreement between the Native Village of Curyung et al and the Office of Children's Services.

Resource Allocation: The service area of this program includes the communities served by the twelve identified regional non-profit tribal organizations. As outlined in the Final Settlement Agreement, a Request for Letters of Interest was issued to all twelve of the eligible organizations. Ten of the twelve non-profit tribal organizations have expressed an interest in participating. In accordance with the Settlement Agreement, the \$1,200,000, will be divided equally (\$120,000 each).

Criteria: The case filed by the Native Village of Curyung et al contends the State has violated the Indian Child Welfare Act and the Adoption Assistance & Child Welfare Act of 1980 by failing to 1) properly screen children for special needs, 2) provide the villages with adequate notice of the children's placement transfers, 3) comply with placement provisions and 4) adequately recruit and retain native foster homes. The compliance grants provide the identified regional non-profit corporations the opportunity to use their resources to improve the State's compliance with ICWA in the areas of moving children up or into ICWA Preference Placements and/or increasing and retaining the number of State licensed Native foster homes. As a requirement of the Agreement, each grantee awarded an ICWA Compliance Grant will generate reports demonstrating the success of the compliance grants. Continuation of the program will depend on if reported outcomes demonstrate an improvement in compliance.

Appropriation: Funds are appropriated to the Department of Law and then to the Office of Children's Services through Interagency Receipt.

RDU: Children's Services

Component: Family Preservation

Office of Children's Services

Intensive Family Preservation Services for Youth at Risk of Experiencing SED

Authority: Under the authority of 7 AAC 78 and AS 47.05.011, AS 47.10 Children in Need of Aid; and AS 47.17 Child Protection. AS 47.05.010 Duties of Department (DHSS); Title IV-B Subpart 2 Sec. 430 [42.U.S.C. 629](a); 7 AAC 78 Department of Health & Social Services Grant Programs; Adoptions and Safe Families Act (ASFA 11/19/97) to protect children by preventing and remedying repeated abuse, neglect and exploitation.

Priorities: To keep children safe, enhance the parent's protective capacities, and achieve permanency and child well-being.

Target Group: Services to families with children who are at risk of or experiencing Severe Emotional Disturbance (SED). Referrals will come from the Office of Children's Services (OCS) or the Division of Juvenile Justice (DJJ), who may not have an open case of legal custody. Referrals may also come from a Behavioral Rehabilitative Services (BRS) provider or a Residential Psychiatric Treatment Center (RPTC) that is currently treating a child already placed in an out-of-home setting.

Resource Allocation: The intent is to fund one project in Juneau or Fairbanks.

Criteria: Criteria includes a sound logic model and evaluation plan, qualified staffing levels and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100

Appropriation: Grant funding is from State Mental Health Trust funds

Office of Children's Services

Permanent Families for Adoptive/Guardianship Children

Authority: AS 25.23.100 - AS 25.23.150 (Adoption); AS 47.10.080 - AS 47.10.088 (Children in Need of Aid); and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The priority is to provide completed adoption and guardianship homestudies for children in the custody of the Office of Children's Services (OCS), as no adoption or guardianship can be finalized without an approved homestudy on the adoptive or guardianship family.

Target Group: The target group consists of children with permanency goals of adoption or guardianship.

Resource Allocation: Statewide service delivery is provided on a regional basis through each of the four OCS regions. Funding levels by region are based upon current utilization and need.

Criteria: Grantees have demonstrated coordination and collaboration with tribal agencies is a requirement given historically high numbers of adoption or guardianship referrals for children residing with relatives and/or tribal families.

Appropriation: Grant funds are appropriated to the Office of Children's Services.

Office of Children's Services**Residential Care for Children and Youth**

Authority: AS 47.40.011 Purchase of Services for minors for whom the state has assumed responsibility under AS 47.10; AS 47.12 Delinquent Minors; 7 AAC 78 DHSS Grant Programs and 7 AAC 81 Grant Services for Individuals

Priorities: The program's priority is to provide for the protection and treatment of children who are victims of child abuse and neglect, as well as to rehabilitate juvenile offenders. Priorities are achieved through programs that include emergency shelter services, 24/7 staffing and care specific to the needs of the child or youth, residential diagnostic treatment, and residential sex offender treatment. Services achieve immediate and long term interventions for the child, youth and family; promote the preservation, rehabilitation, and reunification of families to the extent possible; and promote independence and the use of least restrictive alternatives. A major emphasis is to provide Behavioral Rehabilitation Services (BRS) to children in their own communities whenever possible.

Target Group: The program's target group consists of children who are victims of child abuse and neglect, and also juvenile offenders.

Resource Allocation: Grant awards are allocated for foundational funding to ensure space availability for residential care for OCS, DJJ and BTKH clients in specific numbers in communities across the state. Grant funds are coupled with Provider Agreements with awarded agencies to provide Behavioral Rehabilitation Services on a fee-for-service basis, with fees paid based on the level of care provided (Level II - Emergency Shelter, Level III - Specified Residential Treatment, Level IV - Residential Diagnostic Treatment) and applying a geographic cost differential where applicable.

Criteria: Facilities operating under this grant program are required to be in compliance with the 2010 Behavioral Rehabilitation Services Handbook and State licensing requirements following AS 47.32 (Centralized Licensing and Related Administrative Procedures) and 7 AAC 50.005 - 7 AAC 50.990 (Community Care Licensing).

Appropriation: Grant funds are appropriated to the Office of Children's Services.

RDU: Children's Services

Component: Residential Child Care

Residential Care for Children and Youth Training Program

Authority: AS 47.40.011 Purchase of Services for minors for whom the state has assumed responsibility under AS 47.10; AS 47.12 Delinquent Minors; 7 AAC 78 DHSS Grant Programs

Priorities: This program's priority is to provide training for statewide residential child care staff in order to increase skill and knowledge of front line staff. Priority components of the training include: 1) training specific to the needs of the provider including "core " training curriculum and specialized training as needed, 2) oversight of the web-based learning system (that provides at-will training in compliance issues, clinical issues and general training associated with working with children and adolescents); 3) training in new and promising practices and 4) organization support for providers with specific issues.

Target Group: The program targets residential child care providers, with a particular emphasis on training to line staff providing direct services to children.

Resource Allocation: A single award will be issued following a competitive solicitation process.

Criteria: Criteria for award include a special expertise in the field of training for residential child care staff and an ability to deliver services statewide.

Appropriation: Grant funds are appropriated to the Office of Children's Services

RDU: Children's Services

Resource Family Training

Authority: Federal Title IV B, Sub-part II; Federal Title IV-E training; AS 47.32.030 (E) Powers and duties of the department, delegation to municipality; 7 AAC 50.250 Orientation and training; 7 AAC 78 DHSS Grant Programs

Priorities: The program's priority is to train and support a continuous pool of safe, trained, and culturally appropriate families with which to place children in OCS custody. The program provides accessibility to the minimum annual training required by 7 AAC 50.250(g).

Target Group: The program's target populations are Alaska's potential and current Resource Families, i.e., those providing foster care and/or pursuing adoption of children under OCS custody in out-of-home placement.

Resource Allocation: Resources allocated by way of a single award to a provider of statewide services.

Criteria: The competitive process will identify the eligible proposer most qualified to provide training to urban and rural resource families.

Appropriation: Grant funds are appropriated to the Office of Children's Services.

Office of Children's Services

Rural Social Service Program

Authority: AS 47.05.010 (Duties of Department), AS 47.10 (Children in Need of Aid); and 7 ACC 78 Department of Health & Social Services Grant Programs

Priorities: The Rural Social Services Program is designed to help children and families living in rural Alaska who are at risk for out-of-home placement and children who have been removed from their home setting. The Rural Social Service Program provides child abuse prevention and support services to families at risk of entering into OCS custody and coordinated case management services to families and children who are involved in the OCS system.

Target Group: The priority population for services is families referred by Office of Children's Services (OCS) with children who are in an out-of-home placement. Services will be provided to families with children where there have been substantiated allegations of child abuse or neglect that require an OCS safety intervention and continued efforts to reunify.

Resource Allocation: The service delivery is statewide. Funding amounts are allocated based on population and community resources.

Criteria: Criteria includes a sound logic model and evaluation plan, qualified staffing levels, and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Office of Children's Services

Services for Adoption Support

Authority: Federal Title IV B; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The program's priority is to provide pre- and post-adoption support to a continuous pool of safe and culturally appropriate families in which to place children in Office of Children's Services' custody. Services will provide a continuum of preparation and support for families who adopt or become the legal guardian of a child.

Target Group: The target population includes all referred pre- and post-adoptive or guardianship families residing in the state of Alaska, regardless of race, ethnicity, language, or disabilities.

Resource Allocation: Resources will be allocated to a single grantee providing services statewide.

Criteria: Through the competitive process, the grant will be awarded to the applicant agency best able to provide services to potential and current resource families pursuing adoption.

Appropriation: Grant funds are appropriated to the Office of Children's Services

RDU: Children's Services

Time Limited Family Reunification

Authority: AS 47.10 Children in Need of Aid; AS 47.17 Child Protection and 7 AAC 78 Department of Health & Social Services Grant Programs; Title IV-B Subpart 2 Sec. 430.[42.U.S.C. 629](a) to develop and establish, or expand and to operate a program of family preservation services, community-based family support services, time-limited family reunification services, and adoption promotion and support services. Adoptions and Safe Families Act (ASFA 11/19/97) ASFA amended Title IV-B subpart 2 by adding two new services: Time Limited Family Reunification Services and Adoption Promotion and Support Services.

Priorities: To support the transition of children from out-of-home settings; provide ongoing family contact and transportation services for families; and facilitate the reunification of the child with their biological parent(s).

Target Group: The priority population for services is families, referred by Office of Children's Services, with children who are in an out-of-home placement. Services will be provided to families with children where there have been substantiated allegations of child abuse or neglect that require an OCS safety intervention and continued efforts to reunify.

Resource Allocation: The service delivery is statewide. Funding amounts are allocated based on population and community resources.

Criteria: Awards are funded through the competitive solicitation of a Request for Proposals. Criteria includes a sound logic model and evaluation plan, qualified staffing levels, and accessibility to the target population, as well as other program specific criteria contained in 7 AAC 78.100.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

Tribal Title IV-E

Authority: FEDERAL: The Adoption Assistance and Child Welfare Act (PL96-272); Adoption and Safe Families Act (PL 10589); 45 CFR 1356.60 (b) and (c); and Part E Title IV of the Social Security Act.

STATE: AS 47.05.010 015, the Department of Health and Social Services shall (7) cooperate with the federal government, its agencies or instrumentalities in establishing, extending and strengthening services for the protection and care of homeless, dependent and neglected children. AS 44.20.020. Duties of Department, (a) The Department of Health and Social Services shall administer the state programs of public health and social services. (12) Child welfare services. 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The purpose of this grant is to pass IV-E funds through Office of Children's Services (OCS) to grantees in order to provide a higher level of foster care related services to IV-E eligible native children. The grantees will facilitate cooperation between the division, tribes and tribal organizations; provide for the best interest of Alaska Native American Indian children; meet the policies and goals of the Indian Child Welfare Act of 1978 (ICWA); assure compliance with the Adoption and Safe Families Act; and provide the council with access to federal funding under the Title IV-E administration and training regulations.

Target Group: The target groups include tribes and tribal organizations throughout Alaska providing services to Title IV-E eligible children. Projects are located in the Anchorage, Fairbanks, Juneau, Bethel, Nome, Bristol Bay, Aleutian Pribilof, Kotzebue and Sitka service areas. Services also include coordination and communication between Office of Children's Services, tribes, and tribal organizations statewide.

Resource Allocation: The funding level is based on a cash or in-kind contributions by the tribal council. Contributions by grantees will be reimbursed through IV-E. The allowable administration cost incurred by the grantees will be cost allocated based on: The percentage (%) of all children statewide in foster care who are in OCS custody and who are Title IV-E eligible times (x) 50 percent (Federal Financial Participation for administration costs), if available; The percentage (%) of all Native American children statewide in foster care who are in OCS custody and who are Title IV-E eligible times (x) 50 percent (Federal Financial Participation for administration costs).

Criteria: Federal funding is designated to tribes providing adoption and foster care services. Grantees are required to sign a Title IV-E agreement. This agreement also requires approval by the Federal Administration for Children and Family Services.

Appropriation: Grant funding is appropriated to the Office of Children's Services.

RDU: Children's Services

Adult Basic Education Tutors

Authority: 7 AAC 78 Department of Health & Social Services Grant Programs; Workforce Investment Act of 1998, Title II, Adult Education and Family Literacy and Alaska; and 8 AAC 99.200, Adult Basic Education (ABE) Grants.

Priorities: To provide increased access to and support for Adult Basic Education services, especially tutoring for persons seeking a General Education Diploma in rural communities. In these areas, many adults cannot meet the minimum educational requirements (High school diploma or GED) for jobs available in their community.

Target Group: The target group is adult Temporary Assistance recipients within the communities where the need for these services has been identified.

Resource Allocation: The Federal TANF High Performance Bonus award, places some restraints on the availability of funds.

Criteria: Available funding is awarded to agencies that are designated by Department of Labor as the Adult Basic Education providers for their regions.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance

AK Temporary Assistance Program - Refugee Work Services

Authority: AS 47.27.050 Alaska Temporary Assistance Program, Grants and contracts for services; and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: These work services are designed to assist ATAP refugee families to successfully assimilate into their new communities and to achieve self-sufficiency through employment.

Target Group: Refugees with dependent children who are eligible for Alaska Temporary Assistance, and residing within the Municipality of Anchorage, Matanuska-Susitna Borough, or the community of Delta Junction.

Resource Allocation: Funds from the Temporary Assistance for Needy Families Block Grant are allocated to areas of the state with the greatest influx of refugees.

Criteria: Available funding is awarded to one agency designated by the Administration for Children and Families, Office of Refugee Resettlement.

Appropriation: Grant funding is appropriated to the Public Assistance, Work Services component, from Temporary Assistance for Needy Families Block Grant.

RDU: Public Assistance

Component: Work Services

Public Assistance

Alaska Food Coalition Program

Authority: AS 47.27 Alaska Temporary Assistance Program and 7AAC 78 Department of Health and Social Services Grant Programs.

Priorities: One of the Department's goals is to provide assistance to low-income individuals and families. This grant project goal is to support emergency food programs, including Food Stamp Outreach, which serve Alaskans who are needy and hungry, many of who are not on public assistance but would qualify if they applied. The Alaska Food Coalition is able to maximize the purchasing power of limited funding to increase food purchases for eligible Alaskans.

Target Group: The target group is low income individuals and families in need of emergency food programs. Food is distributed throughout Alaska through food bank programs.

Resource Allocation: Allocation of funding is based on cost of food and the need for emergency food services including Food Stamp Outreach clinics.

Criteria: The grantee must have an established infrastructure, and statewide networking capabilities that leverages resources already in place and substantially increases the effectiveness of the effort supported by available funds.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance**Alaska Heating Assistance Program**

Authority: AS 47.25.621-625 Alaska Affordable Heating Program; AS 47.25.626 Regional Heating Assistance Program; 7 AAC 44 Heating Assistance Programs; and 7 AAC 78 DHSS Grant Programs. The program was renamed ALASKA AFFORDABLE HEATING PROGRAM in 2010. Due to system limitations, the names Alaska Heating Assistance (AKHAP) and Alaska Affordable Heating Program denote the same program from FY11 onward.

Priorities: The federally funded Low-Income Home Energy Assistance Program (LIHEAP) serves households with incomes up to 150% of the federal poverty level. AKHAP expands those services to include Alaskans with incomes up to 225% of the federal poverty level, and also supplements existing LIHEAP funding. AKHAP grants augment programs in those regions currently served by Alaska Native organizations that are operating a federally approved LIHEAP program. Families and individuals residing in areas not served by AKHAP grants may apply directly through the Division of Public Assistance.

Target Group: The target group is Alaskan residents between 0% and 225% of the federal poverty level. Funds are used to provide assistance to Alaskan residents who do not qualify for the Low-Income Home Energy Assistance Program (LIHEAP), with incomes up to 150% of the federal poverty level, but are 150% to 225% of the federal poverty level. Funds may also be used to supplement existing LIHEAP funding.

Resource Allocation: Resources are allocated on the basis of the estimated cost of services per region, which are adjusted annually based on: the number of qualifying agencies and their successful delivery of benefits with the LIHEAP and AKHAP programs; the current available funding, and the eligible population in the areas served. Grantees distribute AKHAP funding in a manner that is consistent with their federal LIHEAP plan.

Criteria: The granting authority restricts eligible applicants to entities that are: 1. An Alaskan Native Organization, and 2. that currently administers a federal LIHEAP program. All eligible entities are invited to participate on an annual basis. If an eligible entity declines to participate, the Division of Public Assistance administers the program in the entity's service area.

Appropriation: Funding is appropriated by the Division of Public Assistance.

Child Care Assistance Program

Authority: Federal Authority: 42 USC 9801 Child Care Development Grants; PL 104 193 Personal Responsibility and Work Opportunity Reconciliation Act; 45 CFR Parts 98 and 99 Child Care Development Fund.
State Authority: AS 47.25 .001-095 Day Care Assistance and Child Care Grants, 47.25.071 Child Care Grant Program; 7 AAC 41 Child Care Assistance Program, and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: Within their designated areas, these grantees verify and evaluate information supplied by child care providers and families seeking to participate in the Child Care Assistance Program. Services include: conducting program eligibility determinations, issuing child care authorizations, and monitoring compliance with program requirements.

Target Group: Services are provided for low income working families and child care providers interested in participating in the Child Care Assistance Program.

Resource Allocation: Allocation of funds is based on anticipated demand for services, projected costs of providing the services, and availability of funds.

Criteria: Grants are awarded statewide to eligible local government and nonprofit agency applicants.

Appropriation: Funding is appropriated to the Division of Public Assistance.

Child Care Licensing

Authority: State Authority: AS 47.32.010(b)(3) Centralized Child Care Facility Licensing; AS 47.32.030 Powers of the Department, Delegation to Municipality; 7 AAC 41 Child Care Assistance Program; 7 AAC 41.015 Responsibilities of Designees; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Within the Municipality of Anchorage, the grantee verifies and evaluates information supplied by child care providers seeking to obtain a child care license. Services include: processing licensing applications, coordinating orientation and training sessions for new providers, reviewing screening assessments, monitoring compliance with program requirements, issuing child care licenses, responding to complaints, and managing hearings.

Target Group: Child care providers within the Municipality of Anchorage.

Resource Allocation: Allocation of funds is based on anticipated demand for services, projected costs of providing services, and availability of funds.

Criteria: This grant is awarded to a municipality that has been delegated child care licensing authority in statute.

Appropriation: Funding is appropriated to the Division of Public Assistance.

Child Care Resource and Referral

Authority: Federal Authority: 42 USC 9801 Child Care Development Grants; PL 104 193 Personal Responsibility and Work Opportunity Reconciliation Act; 45 CFR Parts 98 and 99 Child Care Development Fund
State Authority: AS 47.25.001(b)(2) Delegation of Child Care Duties; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: Grant program services are designed to improve the quality and availability of child care. They include support for families through the operation of child care referral and consumer education services; and support existing and prospective programs that care for and educate young children through professional development and assistance to child care providers.

Target Group: Services are provided for families seeking child care and child care providers.

Resource Allocation: Funds are allocated for a single statewide program to a single grantee supervising three regional offices in Anchorage, Fairbanks and Juneau; and serving a minimum of five additional outreach communities with local representatives; as well as creating and maintaining a statewide website, a statewide newsletter with regional inserts and a statewide database for child care referrals.

Criteria: Applicants for this grant program are required to substantiate a minimum of three (3) years successful experience with regional and statewide planning efforts in working on child care issues and program development. Required experience includes working collaboratively with existing child care programs, families, community organizations, businesses, universities, and health care providers; working with low-income families, families of children with special needs and with cultural minority populations. Required experience also includes providing training to adult learners from diverse backgrounds.

Appropriation: Funding is appropriated to the Division of Public Assistance.

Public Assistance**Commodity Supplemental Food Program**

Authority: Federal Regulations - 7 CFR Part 247 Commodity Supplemental Food Program (CSFP); CSFP State Plan (2006); and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: Commodity Supplemental Food Program (CSFP) grants fund local administration of the CSFP program, which increases the access to nutritious foods, increases food security, and provides nutrition education to low income women, infants, children and seniors. This goal is in compliance with federal and state regulations and policies. The relative need among geographic areas and populations for expanding or providing services is evaluated by determining the percentage of women, infants, and children whose income is below 185% of federal poverty guidelines and seniors whose income is below 130% of the federal poverty level.

Target Group: Those low income persons include: pregnant, breast-feeding, and postpartum women; infants and children up to 6 years old; and seniors over the age of 60. The target area is Anchorage and Fairbanks currently. Counts are kept on the number of women, infants, children and seniors served.

Resource Allocation: The first priority for funding is for the continuation of services to enrolled families and seniors. Criteria include: staffing needed to provide program services; number of satellite clinics; other necessary expenses; and in-kind contribution/resources available to the local agency. Budgets are based on assigned caseload slots and payment is made to grantees on a reimbursement basis.

Criteria: Grantees must have the capability to warehouse commodity foods shipped directly from the USDA, package foods into individual monthly allotments, distribute foods to certified program participants, or box foods and transport to distribution sites. These grants are evaluated with the requirements of 7ACC 78.100.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Gambell Job Center Child Care

Authority: Federal Authority: 42 U.S.C. 601 Grants to States for Aid and Services to Needy Families with Children and for Child Welfare Services; PL 104-193 Personal Responsibility and Work Opportunity Reconciliation Act.
State Authority: AS 47.27.005-990 Alaska Temporary Assistance Program; 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: The purpose of this grant is to provide short-term, safe, healthy and developmentally appropriate child care services to families using the services of the Gambell Job Center. The program also provides parenting information and an environment where quality child care practices can be modeled for parents who use the facility. Additional services include providing parents with consumer information that promotes informed early care and education choices, and a connection to the local child care resource and referral office for additional child care referral services.

Target Group: The target group includes children of Alaska Temporary Assistance Program (ATAP) recipients, ATAP applicants, and others using the services of the Gambell Job Center in Anchorage.

Resource Allocation: Allocation is based on the availability of funds, the projected child care needs at the Job Center, and the anticipated costs of providing this service.

Criteria: Applicants were required to submit specific documentation as evidence of their ability to provide the requested services. Grant proposals are evaluated by the criteria contained in 7 AAC 78.100 and by compliance with service standards.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance**Native Employment Work Services**

Authority: AS 47.27 Alaska Temporary Assistance Program; AS 47.27.50 Grants and Contracts for Services; and 7 AAC 78 Grant Programs

Priorities: While families who receive ATAP benefits are required to plan for self-sufficiency and to participate in work experience opportunities, those families living in remote villages outside the central hub communities do not have access to work and work experience opportunities due to high unemployment in villages and a lack of non-profit or other venues for potential work experience placements and other “countable” activities.

To provide Native Employment Work Services, this partnership will increase opportunities for Alaska Temporary Assistance Program (ATAP) participants in remote villages of Alaska by developing work and work experience opportunities. Native Employment Work Services will provide the supports and supervision needed for participants to be successful. Native Employment Work Services staff will also provide verification of “countable” hours of activity completed by participants to ATAP Work Services case managers so they can document and report countable hours of participation to DPA. The grantee may also help facilitate getting supportive services needed by ATAP Parents to participate.

Target Group: Federal rules set a standard that in each state, at least 50% of parent and 90% of two-parent families receiving Temporary Assistance benefits should be participating in countable work activities. This grant targets families living in remote villages without access to the necessary work and work experience opportunities.

Resource Allocation: Only Native Organizations currently operating a Native Employment Works (NEW) Program under their federally approved NEW Plan (described in 45 CFR 287) are eligible to provide these work experience services to ATAP clients and meet ACF requirements. Nome and the surrounding villages have the highest number of two-parent families in remote rural villages receiving Temporary Assistance who are not also accessing NEW services in the state

Criteria: Eligible grant recipients must currently operate a federally approved Native Employment Works Program.

Appropriation: Funds are appropriated to the Division of Public Assistance.

Native Family Assistance Program

Authority: Federal Authority: 42 U.S.C. 601 and 612, PL 104-193; State Authority: AS 47.27.005-990 Alaska Temporary Assistance Program; and 7 AAC 78 Department of Health and Social Services Grant Programs.

Priorities: These grantees are authorized by the federal government to administer Native Family Assistance Programs as defined by PL 104-193. Grantees receive direct funding from the federal government in the form of a Tribal Family Assistance Grant. This grant program supplements federal funds and is used by grantees to pay benefits directly to eligible Native families to assist them in moving from reliance on welfare to self-sufficiency through employment.

Target Group: The target population includes all families within the service area defined by the boundaries of each of the Alaska Native Regional Non-Profit Corporations responsible for the administration of the Program. In some areas, grantee will operate a regional program that includes all families eligible for assistance, regardless of race, when this is the most efficient approach and there is agreement between the State and the Native Organization.

Resource Allocation: Resources are allocated based on the projections of how much the division would expend in Temporary Assistance benefits for the service population covered by each Native Family Assistance Program.

Criteria: The criteria for the award of funds is that the grantee administers a Native Family Assistance Program, approved and authorized by the federal government.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance

Senior Farmers Market Nutrition

Authority: 15 U.S.C. 714c(e) Sec. 5(e), and 7 AAC 78 DHSS Grant Regulations.

Priorities: The purpose of the Senior Farmers Market Nutrition Program is to provide low-income senior citizens in Alaska with coupons to obtain fresh Alaskan-grown produce at local farmers markets and farm stands.

Target Group: Target group and geographic areas include senior citizens, aged 60 and older, with incomes at or below 185% of poverty level, in the Fairbanks, Anchorage and Mat-Su Valley areas. Disabled adults, under age 60 and qualified for Medicaid, are also eligible to participate in the Senior Farmers Market Nutrition Program.

Resource Allocation: Funding for these awards is based on the anticipated coupon redemption by participating senior citizens and payment is made to grantees on a reimbursement basis.

Criteria: Grantees are awarded grants to pay farmers involved in this program for redeemed coupons. No administrative funding is provided to these agencies willing to provide this service. These two regions were the only regions of the state interested in this venture. Funding was awarded by the United States Department of Agriculture based on an application from the state to do a joint venture with the United Way of Mat-Su and the North Star Council on Aging.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Public Assistance**Special Supplemental Nutrition Program for Women, Infants and Children (WIC)**

Authority: Federal Regulations - 7 CFR Part 246; Annual WIC State Plan; and 7AAC 78 DHSS Grant Regulations

Priorities: Women, Infants and Children (WIC) grants fund local administration of the WIC program, which provides supplemental nutritious foods to alleviate specific health problems to low income women, infants and children. This goal is in compliance with federal and state regulations and policies. The relative need among geographic areas and populations for expanding or providing services is evaluated by determining: 1) the incidence of low birth weight among newborn infants; 2) the rate of infant mortality; 3) the percentages of births to women under 19 years of age; 4) the rate of participation in the Food Stamp Program; 5) the rate of employment; and 6) the percentage of people whose income is below 185% of federal poverty guidelines. Families enrolled in Denali Kid Care with incomes above 185% of the federal poverty level are adjunctively WIC income-eligible.

Target Group: Those persons served by the programs administered by these grantees include: pregnant women, breast-feeding women, and postpartum women, and infants and children up to 5 years old at nutritional risk. The target area is statewide. The projected number of clients to be served is 26,000 per month. Participation data is collected and reports are generated and maintained on the number of women, infants and children served.

Resource Allocation: The first priority for funding is for the continuation of services to enrolled families. Criteria include: staff needed to provide program services; number of satellite clinics; other program expenditures; and in-kind contribution/resources available to the local agency. Budgets are calculated through a funding formula based on caseload and considered individually in order to ensure equity.

Criteria: Grant applications require description of organization, details of budget, population to be served, a program plan with measurable goals and objectives, previous experience, and documentation of community support. Department staff and a Proposal Evaluation Committee review and evaluate applications.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Transportation Services

Authority: Federal Authority: 42 U.S.C. 601, PL 104-193; State Authority: AS 47.27.005-900 Alaska Temporary Assistance Program; and 7 AAC 78 DHSS Grant Regulations

Priorities: Accessible, reliable transportation remains out of reach for many of Alaska's Temporary Assistance clients. This is particularly true for Matanuska-Susitna Borough and Kenai Temporary Assistance families. In Mat-Su and Kenai, grant funding under this program assists local non-profit transportation entities develop the necessary match for two earmarked federal Job Access and Reverse Commute (JARC) grants. The intent of these federal grants is to promote more systematic approaches to alleviate transportation barriers by the expansion of existing, or the creation of new transportation systems.

Target Group: Alaska Temporary Assistance families who live in the Matanuska-Susitna Borough and Kenai Peninsula areas.

Resource Allocation: The division supports local transportation initiatives to meet the needs of Temporary Assistance clients for reliable transportation to access job opportunities. Allocation in the Mat-Su Borough and Kenai Peninsula is based on providing 20% of the anticipated operating costs for one year of services.

Criteria: A request for alternative method of solicitation was approved to allow an award to Mat-Su Community Transit, the only public transportation service available in the Matanuska-Susitna Borough eligible to receive JARC funds; and Central Area Rural Transport System, the only public transportation service on the Kenai Peninsula eligible for JARC funding.

Appropriation: Grant funding is appropriated to the Division of Public Assistance.

Alaska Trauma Registry

Authority: AS 18.08 Emergency Medical Services; 7AAC 26.745 Trauma Registry; 7 AAC 78 Department of Health and Social Services Grant Program

Priorities: The Alaska Trauma Registry is used for the development of injury prevention strategies statewide, injury prevention education, program planning, quality improvement efforts in hospitals and ambulance services, and to review the quality and effectiveness of the statewide trauma care system. The grantee is required to focus on recording data on injured patients admitted to a hospital and to use the data to review quality of trauma care in hospitals and ambulance services. Grant activities are administered by a single grantee.

Target Group: Grant activities are statewide, including the abstracting of trauma data at all acute care hospitals in the state. Approximately 5,000 records of hospitalized injuries are abstracted yearly.

Resource Allocation: Statewide services are provided by a single coordinating agency to include trauma data at more than 20 acute care hospitals in the state.

Criteria: The grantee must have the technology, knowledge and expertise to effectively accomplish the goals of the project.

Appropriation: Grant funding is appropriated to the Division of Public Health.

RDU: Public Health

Component: Injury Prev/EMS

Public Health**Autism Evaluation and Diagnostic Services**

Authority: 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: This program provides for the delivery of statewide pediatric neurodevelopmental evaluation and diagnostic services for autism and co-occurring neurodevelopmental and other medical needs using an interdisciplinary team model of care from an already established in-state health care agency. Specifically, the grantee will provide expanded diagnostic services through a pediatric or family nurse practitioner who will receive training in autism evaluation, diagnosis and service delivery as part of the grant award. In addition, the grant will provide for expanded pediatric neurodevelopmental physician services for complex autism diagnoses; the addition of pediatric psychology diagnostic testing and evaluation services; the addition of occupational, physical, and speech-language assessment and evaluation services; and parent navigation services for families and children with an autism spectrum diagnoses and other co-occurring neurodevelopmental diagnoses. This project was initiated by families who currently have children with autism who participate as an autism subcommittee for the Governor's Council on Disabilities and Special Education and in response to feedback collected as part of the Maternal and Child Health (MCH) Title V Block grant needs assessment. This project will assist in meeting the 6 core national performance measures for children with special health care needs required by the Maternal, Child and Family Health Bureau.

Target Group: Children ages newborn to five years throughout the State of Alaska. Families who experience developmental delays associated with autism spectrum disorders and other co-occurring neurodevelopmental disorders.

Resource Allocation: Available funding is provided to one agency to respond to the need for autism evaluation and diagnostic services statewide.

Criteria: To maximize the use of limited resources and efficiency of services, funds will be awarded to a single entity in the State that has established and delivered pediatric neurodevelopmental services to children using a medical model and other disciplines; and is an effective change agent/system-builder collaborating with various agencies around Alaska to assist in developing family-centered systems of care for children with disabilities and their families.

Appropriation: Grant funding is appropriated to the Division of Public Health

Public Health**Better Choices, Better Health: Living Well Alaska - A Chronic Disease Self-Management Program**

Authority: 7 AAC 78 and Department of Health and Human Services, Administration on Aging (AoA), American Recovery and Reinvestment Act (ARRA), and Communities Putting Prevention to Work; CFDA: 93.725

Priorities: Required services include hosting a minimum of eight (8) workshops during the duration of the grant award, training a minimum of 40 participants, of which 80% (n=32) must complete four out of six sessions, working with TA consultants to develop a participant referral system that ensures fidelity of program delivery, and developing a sustainable Better Choices Better Health program in the target region.

Target Group: Tribal elders and older persons with chronic conditions such as diabetes, heart disease, etc living in the Anchorage area, where the largest percentage of Alaskans 60 and older reside. Target population within this area will be low-income, minority and limited English speaking (ESL) older adults.

Resource Allocation: The Division is required to partner with a center that uniquely serves tribal elders, has the infrastructure to support workshops and data collection, and has recent experience with facilitating CDSMP workshops to the target population.

Criteria: There is a single entity in the state that is capable to meeting the above priorities. The grantee's active participation is identified in the federal grant criteria and in Alaska's grant application as crucial to the success of the chronic disease self-management program (CDSMP).

Appropriation: Grant funding is appropriated to the Division of Public Health

RDU: Public Health

Public Health**Clinical Family Planning Services (Title X)**

Authority: Title X, Family Planning; AS 44.29.020 Duties of department (1) Maternal & Child Health; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Provision of clinical family planning and related preventive health services to low-income women and men in compliance with Title X policies and procedures, including determination of client eligibility and enrollment. The low cost, confidential services provided include: clinical breast examinations, Pap smear screening and pelvic examination, counseling and screening for sexually transmitted infections, and screening, counseling and provision of FDA-approved contraceptive methods and supplies. In addition to clinical services, service sites must provide counseling and education on reproductive and preventive health topics, including preconception health, use of Natural Family Planning methods, abstinence education, parental involvement in the family planning decisions of minor clients, STI/HIV prevention and risk reduction, and infertility prevention.

Target Group: Low-income women and men residing in communities with high unintended pregnancy rates; based on Alaska Pregnancy Risk Assessment Monitoring data, the Fairbanks and Kenai Peninsula borough census areas have the second and third highest numbers of unintended births in the state, respectively. Although the incidence of unintended births is higher in the Anchorage census area, non-profit and government providers in that area identify and utilize other funding sources to serve the low income population. The target group in the Kenai Peninsula Borough is further narrowed to the lower Kenai Peninsula for funding under this grant program, as communities of the upper Peninsula are served through another non-profit agency with a clinic in Soldotna (not part of this grant program).

Resource Allocation: Family planning funds are awarded to a single agency serving the target group in each area identified above.

Criteria: The family planning services provider will offer low cost, high quality clinical family planning and related preventive health services to the identified target population. The agencies will demonstrate their ability to meet all federal and state requirements for the administration of Title X Family Planning Services, while meeting program objectives as determined annually by state and federal priorities, federal legislative mandates, and key issues outlined by the Office of Population Affairs (OPA).

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health**Diabetes Prevention and Control**

Authority: AS 44.29.020 Department of Health & Social Services; 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: Required services include: 1) Facilitate the development, implementation, and evaluation of evidence-based community diabetes or pre-diabetes project; 2) Support community interventions to prevent or postpone the onset of diabetes; 3) Facilitate culturally appropriate interventions to reduce the health disparities among the racial/ethnic minorities at higher risk for development of diabetes and its complications; and 4) Provide ongoing monitoring of diabetes, its risk factors, and complications.

Target Group: People with diagnosed diabetes and people at high risk of developing diabetes. Geographic areas and project boundaries are specified in the grant agreements. The potential service area is Anchorage. It is estimated that we will annually serve approximately 1,500 Alaskan adults with diabetes and another 5,000 Alaskan adults at increased risk for diabetes.

Resource Allocation: Funding levels are based on the needs experienced by, or projected for an area, federal priorities, and the amount of federal funds received.

Criteria: Applicants for grants are asked to demonstrate a history of: 1) involvement in developing/implementing community-based diabetes intervention projects; 2) providing diabetes services to minorities, medically underserved and/or elderly known to be at high risk for developing diabetes and its complications; and 3) monitoring health outcomes.

Appropriation: Grant funds are appropriated to the Division of Public Health.

Public Health**Emergency Medical Services**

Authority: AS 18.08 Emergency Medical Services; 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: The EMS grant program helps accomplish the goals and objectives of the EMS system. Services received through the grants include: 1) planning, development and coordination of regional EMS systems; 2) training and testing for EMS personnel; 3) identifying and prioritizing equipment needs; 4) assisting in EMS data collection training and activities; 5) providing injury prevention services. The seven Regional EMS Councils provide direct input regarding the needs and abilities of each respective community and region. Because the EMS system is highly complex, involving many disciplines, the EMS Regions traditionally are comprised of knowledgeable people in many different fields, from physicians and nurses to pre-hospital EMS providers and communications experts.

Target Group: Services are delivered to the state through the EMS Regions. Whenever a life-threatening injury or sudden illness occurs, the EMS system serves to stabilize and transport the patient to the most appropriate treatment facility as quickly as possible. The EMS program also provides specialized emergency medical training to physicians, mid-level practitioners, and nurses in the pre-hospital, rural clinic, and hospital settings. EMS grants train and certify approximately 4,000 pre-hospital EMS providers. These providers transport an estimated 50,000 patients to hospitals by ground ambulance and perform several thousand emergency air ambulance transports. Approximately 2,000 people are provided Emergency Trauma Technician, Cardiopulmonary Resuscitation, and first aid training each year. The EMS Regions work with local communities to identify, prioritize and seek funding for essential equipment. Finally, the EMS Regions operate injury prevention programs which provide information and materials regarding injury prevention activities to thousands of Alaskans.

Resource Allocation: Resources are allocated statewide through the Regional EMS Councils.

Criteria: Grantees are required to address nationally and state recognized components of an EMS system in terms of goals, objectives, and methodology for achieving those goals.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health

HIV/AIDS Care/Ryan White

Authority: Public Health Service Act, Section 317 Preventative Health Services; AS 44.29. Dept. of Health & Social Services; 7 AAC 78
Department of Health and Social Services Grant Programs

Priorities: The following are required: 1) Provide case management services to persons living with HIV and their families; 2) Purchase high priority outpatient medical/dental and supportive services as well as health insurance for eligible HIV positive individuals, and purchase FDA approved medications for eligible individuals not covered by the AIDS Drug Assistance Program (ADAP); 3) Assist the States ADAP contractor with eligibility determination for the AIDS Drug Assistance Program; 4) Establish/maintain HIV Care Consortia in areas most heavily affected by HIV to determine priority services to be purchased with HIV Care funds and to facilitate access to comprehensive outpatient health and support services. Priority services are established annually, based on federal requirements and state/local needs.

Target Group: Target populations include HIV positive individuals and their families. Geographic areas and project boundaries may be specified based on morbidity and/or other needs. The potential service area is statewide. It is estimated that these funds will serve 300-375 HIV positive individuals annually.

Resource Allocation: Funding levels are determined based upon the relative number of HIV positive people projected to be served in each area, federal priorities, and the amount of federal HIV Care funds received by the State.

Criteria: Potential grantees must: demonstrate a history of providing services to persons with HIV and AIDS; identify services to be provided/purchased; specify objectives, activities, and timelines for implementation; identify evaluation mechanisms; and provide an itemized budget to address the area(s) identified in the Request for Proposals. Grantees provide quarterly progress, data and financial reports; complete federal data forms annually; and provide any specified deliverables. The Division may require changes in project activities based on project evaluation, and will develop methodologies for implementing such changes in consultation with the grantee.

Appropriation: Grant funds are appropriated to the Division of Public Health.

Public Health**HIV/AIDS Prevention**

Authority: Public Health Service Act, Section 301, 42 U.S.C. 241 Chronic Disease Research, Control & Prevention; 2007-2009 Alaska HIV Prevention Plan; AS 44.29 Dept. of Health & Social Services Duties of the department ; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Required services include one or more of the following, depending upon the populations for which they are proposed: 1) partner notification services for newly reported cases of HIV, AIDS and STDs; 2) targeted street and community outreach; 3) community-level interventions; 4) single session group health education/risk reduction interventions in connection with HIV counseling and testing; 5) multiple session group health education/risk reduction based on curricula shown to be effective; 6) individual health education/risk reduction counseling; 7) rapid HIV testing in non-clinical settings; 8) prevention with HIV positive persons; and 9) health communications/public information activities. Priorities are established every three years by the Division of Public Health in conjunction with the Alaska HIV Prevention Planning Group, based on federal requirements and state needs.

Target Group: Priority target populations are specified in the 2010-2012 Alaska HIV Prevention Plan and include HIV positive persons, men who have sex with men, injection drug users, and heterosexual women and men. The potential service area is statewide. An estimated 10,000 Alaskans will be served through these funds annually.

Resource Allocation: Funding levels are determined based on priorities established collaboratively with the Alaska HIV Prevention and Planning Group, federal funding agency requirements, state needs, the quality of the proposed interventions, and the amount of federal funds available.

Criteria: Grantees are required to demonstrate capacity to reach the target population and carry out the activities proposed; to specify objectives, activities, and timelines for implementing interventions likely to be effective; to specify evaluation mechanisms; and provide an itemized budget to address the area(s) identified in the Request for Proposals. Quarterly progress, data, and financial reports are required along with any specified deliverables. The Division may require changes in project activities based on project evaluation, and will develop methodologies for implementing such changes in consultation with the grantee.

K-12 Tobacco Prevention

Authority: AS 44.29 Department of Health & Social Services; 7AAC 78 Department of Health & Social Services Grant Programs.

Priorities: The primary objective of the K-12 Tobacco Prevention grant program is the creation, implementation, and enforcement of strong tobacco-free school policies. A comprehensive tobacco-free school policy does more than deter individual tobacco use. It benefits everyone by reducing exposure to secondhand smoke and reinforcing tobacco-free norms and attitudes. Research on youth-directed education efforts has shown that they are most successful when used in conjunction with community-wide tobacco prevention efforts such as tobacco taxation or smoke-free policies. Successful school-based tobacco prevention programs incorporate key components adapted from the Center for Disease Control (CDC) Guidelines for School Health Programs to Prevent Tobacco Use and Addictions.

Target Group: Alaska Public School Districts serving K-12 students, statewide

Resource Allocation: K-12 Tobacco Prevention grants are funded through State of Alaska Tobacco Use Education and Cessation funds.

Criteria: Grantees limited to public school districts in Alaska, with a primary program objective to 1) implement a program that incorporates the key components, adapted by the Tobacco Prevention & Control program, of the CDC's Guidelines for School Health Programs to Prevent Tobacco Use and Addiction; and 2) coordinate with the Tobacco Prevention and Control, Community Grantee in the same community as the school district, who are working on tobacco prevention in the community.

Appropriation: Grant funding is appropriated to the Division of Public Health

Public Health

Parent Navigation

Authority: 7 AAC 78 DHSS Grant Programs

Priorities: Parent Navigation services are designed to provide support and assistance to families of newborns and young children with cleft lip/palate, hearing loss or deafness, or autism and other co-occurring neurodevelopmental disorders. Services support families from the initial screening at the hospital or birthing center or a health care provider office, through the diagnostic evaluation, to assisting with treatment and payment options, as well as providing information about early intervention and available short and long term resources. Parent Navigation services ensure that: 1) all children with special health care needs have medical homes; 2) families are involved as decision-makers and partners in their child's care; 3) families are satisfied with services received; and 4) the necessary linkages with other services and resources are facilitated as needed.

Target Group: Parent Navigation Program serves Alaska families of children ages 0 to 21 years who experience a cleft lip and/or palate, hearing loss or deafness, or autism and other co-occurring neurodevelopmental disorders. Services are available statewide through clinics held in Anchorage, Bethel, Fairbanks and Juneau.

Resource Allocation: Available funding is provided to one agency to provide services statewide.

Criteria: To maximize the use of limited resources and efficiency of services, funds are awarded to a single entity in the state that has developed and delivered a statewide Parent Navigation Service model exclusively for medical settings; and is an effective change agent/system-builder collaborating with various agencies around Alaska to assist in developing family-centered systems of care for children with disabilities and their families.

Peer Education as a Teen Pregnancy Prevention Strategy

Authority: 7 AAC 78 Department of Health & Social Services Grant Program

Priorities: The projects will be designed to strengthen and increase positive experiences that prevent adolescent pregnancies, promote healthy relationships, and empower young Alaskans to develop into healthy, respectful, caring and responsible citizens. Partners will utilize an evidence-based, evaluated pregnancy prevention curriculum, youth development program or promising practice in school or in an after school setting facilitated by trained and paid peer educators. The peer educators will be supervised and mentored by a qualified adult.

Target Group: The target audience for these services will be youth aged 10-18 years.

Resource Allocation: Program and funding are allocated statewide.

Criteria: Eligible applicants include nonprofit organizations; municipalities and Regional Educational Attendance Areas or other political subdivisions of the state; other State agencies; Alaska Native Tribes; or a combination of these entities. Funding is issued through a statewide competitive solicitation process.

Appropriation: Grant funding is appropriated to the Division of Public Health

Public Health**Public Health Nursing**

Authority: AS 44.29.020 and 7 AAC 78 Department of Health & Social Services Grant Programs.

Priorities: The grantees are expected to provide a range of public health nursing services to area residents with emphasis given to the areas of vaccine preventable diseases, infectious disease control, maternal child health services, and community mobilization/interagency coordination on public health emergency preparedness and response activities. Services include: infectious and chronic disease prevention and control; childhood immunizations; tuberculosis prevention and control services; sexually transmitted disease services; health risk reduction education; teen pregnancy prevention; health & development screening of high-risk children; support and case management for high risk pregnant women and children; family planning education and services; public health emergency preparedness planning and response activities; and continuous assessment and evaluation of population-based public health needs and concerns.

Target Group: Public nursing services are available to residents with medically underserved and/or high-risk populations in the following communities: Anchorage, Eagle River, Chugiak, Barrow, Kotzebue, Nome, and Unalakleet. Public nursing services are available on an itinerant basis to the villages of Atkasuk, Kaktovik, Nuiqsut, Point Lay, Wainwright, Ambler, Buckland, Deering, Kiana, Kivalina, Kobuk, Noatak, Noorvik, Selawick, Point Hope, Shungnak, Wales, White Mountain, Little Diomedede, Savoonga, Gambell, Unalakleet, Elim, Koyuk, St. Michael, Stebbins, Shaktoolik, Teller, Brevig Mission, Golovin, and Shishmaref.

Resource Allocation: Funds are awarded based on the amount of funds available from State and Federal sources. Historical allocations, division priorities, as well as the grantees request are also considered.

Criteria: These grants are awarded under 7 AAC 78.095(a). Proposals must include a detailed project description of their projects including goals, objectives, work plans, evaluation plans, as well as detailed budgets.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health**Public Health Preparedness and Response for Bioterrorism**

Authority: AS 44.29.020 (Department Authority); 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Organizations receiving grants will participate in development of a statewide assessment of needs, communication plans and targeted communication strategies. Services provided will increase preparedness for and response to bioterrorism, outbreaks of infectious disease, and other public health threats and emergencies with three specific areas of focus.

The Alaska Native health system focus will develop a plan describing the role of the Alaska Native health system in a bioterrorist attack; ensure Native health system issues and resources are identified in and coordinated with the State of Alaska plans; promote participation of the Native health system organizations and personnel in preparedness training, and federal drills and exercises; and surveil for key infectious disease syndromes.

The greater Anchorage area focus will enhance direct surveillance activities; increase capacity for planning and coordinating activities, including pharmaceutical caches; coordinate testing the Emergency Response Plan of the Municipality Health Department; participate in development and implementation of the Health Alert Network; and develop a training plan for public health staff and assist in continued participation in the Alaska Public Health Training Network.

The healthcare facilities focus will develop and implement regional preparedness plans and protocols for hospitals, outpatient facilities, EMS systems and poison control centers in collaborative statewide or regional models. Preparedness services will also address non-terrorist epidemics of rare diseases, exposure to chemical toxins and radiological materials, and mass casualties due to explosions.

Target Group: Target groups, respective to the areas of program focus are: Alaska Native healthcare facilities and those they serve; Municipality of Anchorage health department staff and other healthcare professionals in Anchorage, as well as the population in and around the Municipality of Anchorage; hospitals; emergency medical systems; poison control centers; community health centers; rural health clinics; federally qualified health centers; tribally-owned health care facilities; and other outpatient facilities known to be vital points of entry into the health care system.

Resource Allocation: Funding levels are based on federal priorities and the amount of federal funds available to the State.

Criteria: Awarded proposals must provide a work plan for enhancing public health infrastructure and coordinate planning, exercises, and response efforts with the State of Alaska, Division of Public Health. The work plan must specify goals, objectives, activities, and timelines for implementation.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health

Public Health Preparedness and Response for Bioterrorism: Federally Qualified Health Centers

Authority: AS 44.29.020 Duties of Department (DHSS); PHS 309(A)317(K)(1)(2)319; 42 USC 241(A); 42 USC 247d-3a; PHS 319(C-4); 7 AAC78 Department of Health & Social Services Grant Programs.

Priorities: Organizations receiving grant awards will, at the level of primary care facilities, increase levels of preparedness for and response to bioterrorism, outbreaks of infectious disease, and other public health threats and emergencies. This priority includes the enhancement and strengthening of preparedness response and medical surge capabilities specifically as applied to Federally Qualified Health Centers and affiliated community-based healthcare clinics.

Target Group: Federally Qualified Health Centers and affiliated community health centers statewide.

Resource Allocation: Funding levels are based upon federal priorities and the amount of federal funds available to the State of Alaska.

Criteria: Grantee work plan must address, at the level of community-based healthcare clinics, the enhancement of preparedness for and response to outbreaks of infectious disease, bioterrorism, and other public health threats and emergencies.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health**Tobacco Cessation Interventions**

Authority: AS 44.29.020; AS 47.05.010; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: As a means to reduce death, disability and the economic burden caused by tobacco use, evidence-based tobacco control programs are needed that respond to the four goal areas of the State of Alaska Tobacco Prevention and Control (SOA-TPC) Program, and the current Centers for Disease Control and Prevention's (CDC) Best Practices for Comprehensive Tobacco Control Programs. The goal areas are: 1) prevent the initiation of tobacco use among youth; 2) promote cessation for tobacco users; 3) eliminate exposure to secondhand smoke, and; 4) identify and eliminate tobacco use disparities. The long term goal of this grant program is to reduce the prevalence of tobacco use in health care center patient populations and to reduce the death, disability and economic burden related to tobacco use and/or exposure to tobacco smoke. This grant program focuses on the goal area: 2) promote cessation for tobacco users; and is formed by the evidence-based strategies for cessation outlined in the CDC Best Practices for Comprehensive Tobacco Control Programs.

Target Group: All Alaskans affected or potentially affected by tobacco use.

Resource Allocation: Proposed service delivery is statewide. Eligible applicants include nonprofit health care centers, municipal health care centers, federally qualified health care centers, or federally designated community health centers. Service areas must include at least 2,000 people. Applicants must meet the eligibility requirements of 7 AAC 78. This program is funded through Tobacco Use Education and Cessation Funds, appropriated annually by the State legislature.

Criteria: Grantees must: 1) adhere to the CDC Best Practices for Comprehensive Tobacco Control Programs; 2) implement a State approved Action Plan and Action Plan Narrative; 3) implement a State approved Health System Summary and Health System Summary Narrative, 4) implement a State approved Tobacco Cessation Interventions Sustainability Plan; 5) collaborate with the Alaska Tobacco Quit Line.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health**Tobacco Prevention and Control (Community Based Grants)**

Authority: AS 44.29; AS 47.050.010; 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: The mission of the Tobacco Prevention and Control (TPC) Program is to improve the health of all Alaskans by decreasing death, disability and economic burden caused by tobacco use and exposure to second hand smoke. Tobacco use continues to be Alaska's number-one public health problem. This grant program provides funding to communities that are actively involved in population-based, policy-focused tobacco prevention and control strategies.

The Alaska TPC Program has developed four major public health goals:

- (1) to prevent initiation of tobacco use among young people;
- (2) to promote quitting among adults and young people;
- (3) to identify and eliminate tobacco-related disparities in specific populations identified as of special vulnerability or with above-norm tobacco use patterns; and
- (4) to eliminate exposure to secondhand smoke.

The structure of Alaska's tobacco program is based on recommendations from the CDC's Best Practices for Comprehensive Tobacco Control Programs. The statewide program is organized, funded, and managed as program components designed to accomplish and measure the TPC Program goals. The program components include:

- (1) community-based programs to reduce tobacco use;
- (2) enforcement (in Division of Behavioral Health);
- (3) statewide programs that increase the capacity of local programs by providing technical assistance on evaluating programs, promoting media advocacy, implementing smoke free policies, and reducing minors' access to tobacco;
- (4) cessation programs;
- (5) media/counter-marketing;
- (6) surveillance and evaluation; and
- (7) administration and management.

Target Group: Alaskans who are affected by tobacco use.

Resource Allocation: Tobacco prevention and control community-based grants are funded through State of Alaska Tobacco Use Education and Cessation funds.

Criteria: Community based grantees that demonstrate broad-based community involvement in their local tobacco control alliance, and submit an action plan that includes long-term policy interventions.

Appropriation: Grant funding is appropriated to the Division of Public Health.

Public Health

Tuberculosis Control

Authority: Section 301 and 317 of the Public Health Services Act, as amended; AS 44.29.020; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Services required from the organization receiving this grant include the following: 1) Provide comprehensive tuberculosis (TB) medical care for Norton Sound clients with tuberculosis or latent TB infection; 2) Perform a contact investigation for each infectious case of TB; 3) Provide screening for latent TB infection.

Target Group: Target groups include TB patients, their close contacts, and other high-risk populations. Services are limited to the Norton Sound Region; an estimated 7,500 Alaskans are served annually.

Resource Allocation: Funding levels are based on the needs experienced by or projected for an area, and priorities of the Alaska TB Program.

Criteria: The grantee is asked to demonstrate a history of providing services to persons with TB, and is required to specify goals, objectives, activities, and timelines for implementation, an itemized budget and evaluation mechanisms to measure success. Progress and financial reports are required, along with any specified deliverables. The Division may require changes in project activities based on project evaluation, and methodologies for implementing such changes will be developed in consultation with the grantee.

Appropriation: Grant funds are appropriated to the Division of Public Health.

Youth Pregnancy and Violence Prevention Projects

Authority: 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: Promising practices/screened programs that are centered on empowering youth for positive growth and experiences for healthy relationships, and preventing teen pregnancy. Partner organization will choose mini-grantees who work in regions that have a high incidence of early sexual onset, high rates of teen births or high rates of intimate partner violence, as demonstrated by data and/or knowledge of community and population behaviors.

Target Group: A partnership with a youth serving organization to administer mini-grants to youth groups. Intent is for mini-grant projects designed to strengthen and increase positive experiences that prevent teen pregnancies, promote healthy relationships, and empower young Alaskans to develop into healthy, respectful, caring and responsible citizens. Population to reach is intended for rural Alaskan youth ages 10-20. Projects will replicate a promising practice/screened program, centered on the themes of intimate partner violence prevention and/or pregnancy prevention.

Resource Allocation: Program funding will be to a single entity, with sub-grants to youth groups.

Criteria: Eligible applicants include nonprofit organizations; municipalities and Regional Educational Attendance Areas or other political subdivisions of the state; other State agencies; Alaska Native Tribes; or a combination of these entities. Funding is issued through a statewide competitive solicitation process.

Appropriation: Grant funding is by RSA from Division of Public Assistance

Senior and Disabilities Services

Acquired and Traumatic Brain Injury Program

Authority: AS 47.80.500 – Acquired and Traumatic Brain Injury Program and 7 AAC 78 Grant Programs

Priorities: The Acquired and Traumatic Brain Injury (ATBI) Mini Grant Program, begun in FY 2010, is a SDS-administered program that serves adult survivors of ATBI with case management services designed to promote stability and independent community living. In addition, the 2010 Alaska Legislature passed SB 219, a bill mandating a comprehensive state-sponsored ATBI program. The bill authorized “targeted case management” services for people with ATBI as an optional Medicaid service. Mini grants will allow the individual to access medical, dental and behavioral training services needed to diagnose and treat ATBI and associated conditions, (if not covered by Medicaid), and to purchase adaptive equipment and other items needed to implement compensatory strategies for cognitive disabilities.

Target Group: This program is designed to serve adult survivors of traumatic brain injury, who are receiving case management services through either the Senior and Disabilities Services Acquired and Traumatic Brain Injury Case Management Program or through the new Medicaid targeted case management service.

Resource Allocation: Mini Grants will be made available statewide through a single administrator.

Criteria: This program was designed to be flexible and intended to respond immediately to meet the needs of clients by providing necessary supports not funded by other programs. It addresses the type of needs of the designated beneficiary group intended by the Mental Health Trust Authority. Applicants to administer this program are evaluated for their ability to effectively administer the program.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Adult Day Services**

Authority: 45 CFR Part 1321, Title III, The Older Americans Act ; AS 47.65 Service Programs for Older Alaskans & Other Adults; and 7 AAC 78 Department of Health & Social Services Grant Programs; and the provisions of Adult Day Services standards adopted by the Division of Senior and Disabilities Services.

Priorities: Adult Day Services programs provide an organized program of services during the day in a community group setting, for the purpose of supporting adults personal independence and promoting their social, physical and emotional well-being. Services include a variety of program activities designed to meet the individual needs and interests of the participants, and referral to and assistance in using appropriate community resources. The provision of these services allow families and other caregivers to continue caring for individuals, so that they can continue to live at home. Adult Day Services often help stabilize individuals after a health crisis, and by providing assistance in daily living activities, help clients remain in their communities. For persons with Alzheimers Disease and Related Disorders (ADRD), these programs provide an environment that helps individuals maintain function even while the disease progresses. Adult Day programs in Alaska strive to promote the individuals level of functioning and independence in a therapeutic setting; provide support, respite and education for families and other caregivers; provide opportunities for social interaction; and serve as an integral part of the community service network.

Target Group: The target group are individuals who require assistance with supervision due to physical, emotional, or cognitive impairments who are 60 years or older, 55 years or older who are at risk for institutional placement, persons of any age with Alzheimers Disease or Related Disorders, or adults 18 years or older with similar disabilities and service needs as Older Alaskans.

Resource Allocation: The service area is statewide. The funding methodology takes into account basic costs of operation and performance. Each site is given the same base grant and a percentage of remaining funds based upon an average of hours of service provided over a four-year period.

Criteria: Grantees must be a certified Adult Day Care provider under the most current DSDS Medicaid Waiver regulations. In addition, all Adult Day Care providers must meet and maintain standards as set forth in the Division of Senior and Disabilities Services Adult Day Program Standards.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Aging and Disability Resource Centers**

Authority: AS 47.24 Protection of Vulnerable Adults; AS 47.65 Service Programs for Older Alaskans and Other Adults; AS 47.80 Persons with Disabilities; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The goal of Alaska's Aging and Disability Resource Centers (ADRCs) is to provide for individuals of any age with a disability and their caregivers, a visible and trusted place to go for comprehensive information about long term care services available in their communities. The ADRCs help to streamline a consumer's ability to access sufficient long-term care services by consolidating information, providing referrals, and assisting the consumer in accessing services specific to their needs. ADRCs provide long-term care options counseling that provides information about housing, in-home services, Medicaid, Medicare Part D, home modifications, informal supports, transportation, disability determination, behavioral health services, Social Security Disability Insurance, Social Security Insurance, Adult Public Assistance, case management, Personal Care Attendants, and other home and community based services. The Aging and Disability Resource Centers work in concert with the department's Rural Long Term Care Coordinator and other care providers to develop and improve access to long-term care services for Alaska Mental Health Trust beneficiaries and their families, so that they do not have to leave their homes and communities. The Centers are partners with local hospitals in a Care Transitions initiative to improve the health outcomes and self-management skills of patients discharged from the hospital to their homes. The Aging and Disability Resource Centers are Local Contact Agencies for Section Q in working with nursing facilities and Senior and Disabilities Services to transition residents wishing to return to their home.

Target Group: There are no income, geographic or age restrictions for ADRC services. The target population for this grant is Older Alaskans (as defined in AS 47.65.290) or Persons with a Disability (as defined in AS 47.80.900), and their families or caregivers.

Resource Allocation: Nine (9) ADRC coverage areas have been established using the Department of Health and Social Services defined regions. Applicants are required to identify which coverage area they propose to serve and detail how ADRC services will be delivered throughout the coverage area.

Criteria: Applicants are required to demonstrate a thorough understanding of the grant program goals in the development and presentation of their project goals; and meet or exceed the outcomes anticipated by the Department.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services

Alaska Mental Health Trust Authority (AMHTA) Developmental Disabilities Mini-Grants

Authority: AS 47.80 Persons with Disabilities, 7AAC 78 Department of Health & Social Services Grant Programs

Priorities: Mini-Grants are one-time awards made to individuals, not to exceed \$2,500 per recipient, per year, for health and safety needs not covered by grants or other programs. Mini-grants are intended to help beneficiaries attain and maintain healthy and productive lifestyles. Supplies or services the Mental Health Trust considers appropriate for Mini-Grants include, but are not limited to: therapeutic devices, access to medical, dental and vision care, and special health-care needs.

Target Group: Eligible individuals include Alaska Mental Health Trust Beneficiaries who have a developmental disability or receive Early Intervention/Infant Learning Program services.

Resource Allocation: Funds are allocated by geographic census area according to the percentage of population in the each designated area, and distributed by a single Statewide grantee.

Criteria: This program was designed to be flexible and to respond immediately to meet the needs of consumers, and has been an effective way to provide necessary supports not funded by other programs. It addresses the type of needs of the designated beneficiary group intended by the Mental Health Trust Authority.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Alzheimer's Disease and Related Disorders - Education and Support Services**

Authority: AS 47.65 Service Programs for Older Alaskans & Other Adults; and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: The Alzheimer's Disease & Related Disorders (ADRD) Education and Support Services program provides statewide education and support services to people with Alzheimer's Disease and Related Disorders and their caregivers; as well as providing education about ADRD to the general public, healthcare professionals, professional caregivers, agencies and organizations. The Scope of the project includes: Support to families, which assists them to maintain the ADRD client at home, forestalling or preventing institutionalization; Dissemination of information to families and the general public regarding the process, prevalence and research findings of ADRD; Promotion of general awareness statewide of ADRD and the impact on families and communities; and Advocacy for services for persons with ADRD. ADRD also includes, but is not limited to, Vascular Dementia, Parkinson's Disease, Pick's disease, Huntington's disease, Lewy Bodies, HIV and alcohol related dementia and others.

Target Group: The target Group for ADRD Education and Support is individuals with Alzheimer's Disease and Related Disorders, their caregivers, health care professionals, professional caregivers, agencies, organizations, and the general public.

Resource Allocation: Resource allocation is based on the federally approved State Plan for Services and the Alaska Mental Health Trust Authority beneficiary group definition. Services are provided statewide by a single agency with regional offices.

Criteria: The grantee must meet requirements as stated in the Request for Proposals and have demonstrated knowledge and expertise in providing education, training and support to caregivers, individuals, services providers and the community at large about Alzheimer's Disease and Related Disorders. The grantee must also maintain outreach offices in Anchorage, Fairbanks, Juneau, and the Mat-su regions.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

RDU: Senior and Disabilities Svcs

Component: Senior Community Based Grants

Senior and Disabilities Services**Behavioral Risk Management**

Authority: Programmatic: AS 47.80 Persons With Disabilities; 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: As required by AS 47.80.100, the Department must, within the limits of appropriation, implement a comprehensive system of services and facilities dispersed throughout the state. The services required under this statute are specialized and directed towards addressing minimal habilitation and crisis needs of people with developmental disabilities (DD) who display high risk behaviors. This program addresses the severe statewide shortage of qualified direct care staff and professionals with critical expertise necessary to deliver services to people with DD.

Target Group: Statewide services are targeted for individuals with developmental disabilities (DD) who display high risk or inappropriate behaviors and are at risk of institutionalization in corrections facilities, as well as individuals who, because of their disability, are more vulnerable to abuse. Training or support provided by this program must be accessible to direct service staff, school paraprofessionals, family members of people with disabilities, and other interested students, in their home communities.

Resource Allocation: Funds are allocated to provide services statewide through a single provider with specialized expertise and capability.

Criteria: To receive a grant under this program, the organization must demonstrate that they have the required infrastructure and necessary expertise to accomplish the goals for each grant. Additionally, the grantee must incorporate and make maximum use of other federal, state, and private funds to advance to goals for each project. Under the federal Developmental Disabilities Act, the Center for Human Development/UCED receives federal funds to connect specifically to research information from other states and adapt it for optimal delivery of services and training in Alaska.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Community Developmental Disabilities Grants**

Authority: AS 47.80 Persons with Disabilities; and 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: The Community Developmental Disabilities Grant Program (CDDG) strengthens and sustains the capacity of rural and remote communities to provide services to all members of their community. Services enable individuals to remain with their natural families, while being able to access the support they need to participate in the social and economic lives of their community; thereby minimizing the potential for institutionalization. CDDGs help provide care in the local community for people having severe disabling conditions such as mental retardation, autism, or cerebral palsy. Services vary depending upon the person's age and unique needs; and may include supported employment, respite care, care coordination, day habilitation, case management, and specialized equipment. In some situations, the Program may provide residential care in a group living or independent living arrangement. For those who qualify by meeting the diagnostic and income limits, the Home and Community Based Waiver Program may provide similar services. However, for those who are not eligible or who do not need the long-term residential care that the Mental Retardation & Developmental Disabilities (MRDD) Waiver is designed to provide, CDDGs allow cost effective services to be tailored to each individual recipient, particularly to those whose families act as primary caregivers.

Target Group: Services are provided statewide to persons who meet specific criteria outlined in the State of Alaska's definition of developmental disabilities in AS 47.80.900. Since the program participant is authorized to choose their provider from a list of qualified providers, individuals currently receive services in nearly 150 communities across the state.

Resource Allocation: Grant funds are allocated to purchase services for people with developmental disabilities consistent with the state plan described in AS 47.80.090(5).

Criteria: Standards of care are expressed as Service Principles stated in AS 47.80.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**National Family Caregiver Support Program**

Authority: Federal Title III-e of the reauthorized Older American Act; AS 47.05.010 Duties of the Department of Health and Social Services, AS 47.65.010 Service Programs for Older Alaskans & Other Adults; and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Older Americans Act programs have long recognized caregivers as key players in meeting the needs of Older Persons in the community. The creation of the National Family Caregiver Support Program (NFCSP) in the 2000 Reauthorized Older Americans Act for the first time, requires all State units on aging to focus on the caregiver rather than the Older Consumer, and to provide service primarily for the benefit of caregivers themselves. The NFCSP is intended to offer a multi-faceted system of caregiver support that includes, at a minimum, the following services: Information to caregivers about available services; Assistance to caregivers in gaining access to support services; Individual counseling, Support groups and Training to caregivers to assist the caregivers in making decisions and solving problems related to their care giving roles; Respite care to enable caregivers to be temporarily relieved from their care giving responsibilities; and Supplemental Services, on a limited basis, to complement care provided by eligible caregivers. These services are implemented through partnerships between State, Tribal, and Local Governments, both Public and Private organizations, and Community Service providers in order to develop programs whose sole purpose is to provide relief from emotional, physical and financial stress experienced by Family Caregivers.

Target Group: Two population groups are to be served by the program: Family Caregivers of adults 60 and older, and grandparents and relative caregivers aged 55 and over of children not more than 18 years of age, are eligible to receive support services offered by Alaska's Family Caregiver Support programs.

Resource Allocation: Allocation of resources is based on the Federally approved State Plan for Senior Services and funding limitations as indicated in Title III-e.

Criteria: Grantees must have demonstrated knowledge and experience in providing services to the target population.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Nursing Facility Transition Program**

Authority: Americans with Disabilities Act; Olmstead Decision; New Freedom Initiative; and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Nursing Facility Transition Program provides services for people with disabilities or the elderly to move from nursing facilities into the community in order that they might live in the least restrictive setting possible and integrate into and participate in their community. Grantee Transition Coordinators work closely with nursing facility social workers and discharge planners and the DSDS-LTCU staff for timely and efficient discharge and transition. Funds from these grants may provide services as diverse as security deposits (no rent payments); groceries; trial visits to home or to an Assisted Living Home; or transportation, room and board for a caregiver from a rural area to an urban area for training in the care of the recipient. Services to be provided may include: outreach and counseling, assessment of the consumer for appropriateness of transition, peer counseling, home assessment for safety, transition planning and implementation of the plan. Needed items or services may be approved by the State Program Coordinator, such as funding for: home or environmental modifications, Travel/Room/Board for rural caregivers to receive client specific training, trial trips to the home or assisted living home, short-term payment for an appropriate worker of a skill level needed, security deposits, one-time initial cleaning of the home, basic furnishings necessary to set up a livable home, transportation to a new home, ongoing follow-up and counseling as needed, evaluation of effectiveness of services, and evaluation of continuing quality of life for the consumer.

Target Group: The Nursing Facility Transition Program targets any Alaska resident over the age of 21 who resides in a nursing facility and who wants to transition back into the community. Clients must have, or be expected to have, Medicaid Waiver approval within six months. This program is available to any resident of a nursing facility in Alaska. Alaska residents residing in a facility outside the state will be considered on a case-by-case basis.

Resource Allocation: Priority is given to applicants who document that they can provide staff time as matching in-kind funds and/or other resources necessary to deliver and coordinate services statewide.

Criteria: Proposers must have a statewide network specific to the type of services requested and the capability to coordinate activities with satellite agencies or through agreements with like agencies. Applicants must submit a map showing the location of satellite offices or agreement agencies. The description of proposed services through satellite agencies and/or coordination with like agencies must be fully supported by written agreements.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Nutrition, Transportation and Support Services**

Authority: Title III Older Americans Act; AS 47.05.010 Duties of the Department of Health and Social Services, AS 47.65.010 Service Programs for Older Alaskans and Other Adults; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Nutrition, Transportation and Support Services (NTS) program, authorized under Title III of the Older Americans Act, provides grants to local community organizations such as senior centers, non-profit agencies, and tribal or local governments, in order to meet the needs of Alaska's aging population. NTS program provides services to Seniors age 60 and over, helping them to remain independent and healthy in their communities. Services are targeted to those with the greatest economic and social need through a State Plan funding formula developed by the Alaska Commission on Aging in collaboration with the Department of Health and Social Services. Services provided through this program include Information and Assistance, Outreach, Congregate and Home Delivered Meals, Assisted and Unassisted Transportation, Homemaker, Health Promotion and Disease Prevention, Senior Companion, Foster Grandparent/Elder Mentor, and Retired Senior Volunteer Programs. Also funded are Statewide Media and Legal Service providers.

Target Group: These services are available to Alaskans 60 years of age and over. In addition, the target populations include those Seniors whose incomes are below the poverty guidelines, live in rural areas, are members of minority groups, and are physically frail. These categories for targeting services are based on requirements in the Federal Older Americans Act.

Resource Allocation: Funding is allocated through the Intra State Funding Formula approved in the State Plan for Senior Services using the most current U.S. Census data. Each of nine regions in the state receive an allocation of funds based on the number of individuals 60 years old and over, and the target populations stated above with specific weighting factors.

Criteria: Applicants must meet the requirements for program delivery. Proposals are evaluated based on the criteria in the Request for Proposals and prior year performance.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Protection and Advocacy**

Authority: Programmatic: Public Law 106-402 DD Act; Americans with Disabilities Act; AS 47.80 Persons with Disabilities and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Protection of Rights & Investigation of Abuse program provides people with developmental disabilities (DD) and their families training and assistance in methods to resolve grievances they may have with providers of community developmental disability services. Services funded by the program range from information and referral, negotiation and mediation, various interventions in line with administrative recourse and, as a last resort, legal consultation and remedies. Under the Federal DD Act, the state must have a system of protection and advocacy that has the capacity to provide administrative and legal remedies to civil rights concerns for people with developmental disabilities. The program exists to assist eligible individuals, sometimes through their families and guardians, to engage in their own advocacy. In collaboration with the Division of Senior and Disabilities Services, this grant has been used to emphasize training to recipients in such areas as special education, social security and the Americans with Disabilities Act.

Target Group: In order to receive this grant, an organization must have the capacity to provide the Department with an immediate statewide response to complaints of abuse and neglect by persons meeting the definition developmentally disabled as described in AS 47.80.900.

Resource Allocation: A single agency provides statewide Protection and Advocacy Services. This award incorporates and makes maximum use of other federal, state, and private funds, which are awarded directly to the sole provider to establish and maintain protection and advocacy services to Alaskans with mental illness and other unique populations with concerns similar to those of persons with developmental disabilities. The Disability Law Center has continuously performed these unique services for 25 years.

Criteria: The grantee must have the unique legal authority under state and federal law to investigate complaints by vulnerable people with developmental disabilities, of abuse and neglect in institutions. Additionally, the grantee must assist and train the target population statewide in identifying and obtaining needed services from generic public benefits and entitlement programs, and special education for adolescents with developmental disabilities. The Disability Law Center (DLC) was created in 1977 to meet the requirements of Alaska Statute 47.80.020 to have a system of protection and advocacy for people experiencing developmental disabilities (DD).

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services**Senior Information Office - Medicare Outreach**

Authority: PL 101-508 codified at 42 USC 1395 b-4, Section 4360 of Omnibus Budget Reconciliation Act of 1990; and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: Services through this program provide personalized counseling, education and outreach to assist current Medicare beneficiaries and persons eligible for Medicare benefits with their Medicare questions. Funds support a network of local programs, staff and volunteers that provide accurate and objective information to help beneficiaries understand and utilize their Medicare benefits including preventive benefits. This grant will supplement outreach efforts to the targeted populations.

Target Group: Alaska has 52,000 Medicare beneficiaries of which approximately 36,000 reside in the Anchorage area. This project begins with targeting those that should be applying for low income subsidy "extra help". Federal funders have prioritized the DHSS efforts to direct services to low income seniors in Anchorage including Korean, Filipino, Asian Pacific, African American and Spanish-speaking citizens, and people who experience mental health issues and/or homelessness. Special emphasis will be placed on partners that can penetrate the unmet needs of limited income seniors living in designated zip code areas.

Resource Allocation: This grant funds part time Medicare information/outreach counselors located in Anchorage and positioned to reach the many low income seniors in the Anchorage area.

Criteria: To maximize the benefit of the available resources, eligibility for grant award is limited to agencies with existing infrastructure already providing services to seniors, and/or agencies that provide culturally based activities or services to the targeted communities. Applicants must also demonstrate adequate accessibility to services by potential recipients, and have staff with current training in current in Medicare counseling services. A consideration for award includes the ability to provide language appropriate counseling to the targeted ethnic populations.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services

Senior In-Home Services

Authority: The Older Americans Act; AS 47.05.010 Service Programs for Older Alaskans & Other Adults; AS 47.65.010 Use of money in the mental health trust authority settlement income account; and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The goal for DSDS Senior Grants is to provide a flexible delivery system that best meets the needs of seniors in their homes and communities statewide and to provide a safety net to seniors and their caregivers who do not meet level of care for the Home Community Based (HCB) Medicaid Waiver. Senior In-Home Services is the provision of Care Coordination, Chore, Respite Care and Extended Respite Care services to individuals of any age with Alzheimers Disease or Related Disorders (ARD) and individuals 60 years of age and older, who are frail, have physical disabilities or mental health issues. These services will be targeted toward individuals who are at risk for institutional placement, have greatest social and economic need, are Alaska Native or are residing in a rural area. The intent of this program is to provide in-home services to help recipients remain independent in their homes and communities for as long as possible.

Target Group: The target group includes persons of any age with Alzheimers disease or related disorders, Frail/Elderly, or disabled persons 60 years of age or older. Adults 18 years of age or older with similar disabilities and service needs to older Alaskans when the provision of care to such persons does not diminish services to primary groups of persons being served.

Resource Allocation: Resource allocation is based on the funding formula in the Alaska State Plan on Aging. Service area is statewide.

Criteria: Grantees must be a certified Care Coordination, Respite and/or Chore provider agency under the most current DSDS Medicaid Waiver regulations. In addition, all Care Coordination and Respite providers must meet Care Coordination and Respite standards adopted by the Division of Senior and Disabilities Services.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services

Senior and Disabilities Services

Senior Residential Services

Authority: AS 47.65 Service Programs for Older Alaskans; AS 47.33 & 7 AAC 75 Assisted Living Homes; 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The Division of Senior and Disabilities Services (SDS) oversees grants that support assisted living facilities for elders in Tanana and Kotzebue. SDS monitors and licenses both residences as Assisted Living Facilities. By definition, assisted living facilities provide meals and assistance with daily activities to enable seniors to remain in or near their community of choice.

Target Group: These grants fund Assisted Living Facilities in Tanana and Kotzebue for seniors from those communities and surrounding villages.

Resource Allocation: Funds are allocated to the regions served by Tanana Tribal Council and Maniilaq Association.

Criteria: Grantees must meet the standards for assisted living facilities licensed and monitored by the Department.

Appropriation: Grant funding is appropriated to the Division of Senior & Disabilities Services.

RDU: Senior and Disabilities Svcs

Senior and Disabilities Services**Short-Term Assistance and Referral Programs STAR**

Authority: AS 47.80 Persons with Disabilities and 7 AAC 78 Department of Health & Social Services Grant Programs

Priorities: The STAR program exists to assist people with developmental disabilities (DD) and their families by assisting them to access information, referrals, assistance, education, person-centered planning, and crisis intervention on a short-term basis that will create stability, enhance the quality of life, and increase independence for families and individuals who experience developmental disabilities. Many people who are on the DD waitlist access STAR services. Allowable costs under the STAR program include, but are not limited to: respite, transportation, adaptive equipment, and services that assist the family, such as behavioral training or medical appointments not funded by another source. Assistance with basic living needs necessary to avert a crisis that are not covered by another public or private program, such as emergency medical transportation and clothing may be approved on a limited basis. Rent and utilities expenses may be approved as a one-time payment if necessary to keep the family in the home and while other resources are being secured.

Target Group: People with developmental disabilities and their families may access STAR services.

Resource Allocation: STAR grants are allocated geographically and provide funding for personnel and operating costs to enable grantees to serve people within their census area.

Criteria: This program was designed to act as a conduit to developmental disabilities services and to respond immediately to meet the needs of consumers who have been determined eligible for developmental disabilities services under AS 47.80.900. In so doing, the STAR grant program has been an effective way to prevent crisis situations and to provide necessary supports, reducing the need for more intensive services.

Appropriation: STAR Program funding is appropriated to the Division of Senior and Disabilities Services.

Senior and Disabilities Services

Student Living Center Services for the Deaf and Hard of Hearing

Authority: AS 47.80 Persons with Disabilities; 7 AAC 78 Department of Health and Social Services Grant Programs

Priorities: The program provides residential services and daily support to students from outside the Anchorage area while they are attending the Alaska State School for the Deaf and Hard of Hearing, within two licensed board and care homes and one foster care placement home. Individuals participate in life skills training, community activities, and after school sports or clubs. Services are provided 24 hours a day, seven days a week during the academic year. During summer, when students do not occupy the living center, the residences may be used as temporary housing for families of developmentally disabled children who are in Anchorage for medical treatment or evaluation.

Target Group: Services are provided statewide to persons who meet specific criteria outlined in the State of Alaska's definition of developmental disabilities (AS 47.80.900) in need of educational services at the Alaska State School for Deaf and Hard of Hearing. Priority placement is given to children from outside the Anchorage area.

Resource Allocation: Services are provided in Anchorage where the Alaska State School for Deaf and Hard of Hearing is located. Funding is provided to DHSS through a Reimbursable Services Agreement with the Alaska Department of Education and Early Development.

Criteria: Grant funds are distributed through the Department's grant process. Each grantee is required to be reviewed regularly by the Division's Quality Assurance review team, and by an independent financial auditor. A Division-approved action plan is required from the grantee, responding to any recommendations made by the review team. Standards of care are expressed as Service Principles stated in AS 47.80.

Appropriation: Grant funding is appropriated to the Division of Senior and Disabilities Services.
